PROFESSIONAL SUMMARY

Product Designer with 4+ years of experience designing **consumer mobile applications**, healthcare experiences, **AI-powered products**, and information-dense digital platforms across fast-growing product environments. Skilled in **end-to-end product design**, interaction design, design systems, mobile UX, prototyping, user flows, and transforming complex healthcare and scientific information into intuitive experiences improving engagement, adoption, and user outcomes. Experienced collaborating with founders, product leaders, engineers, and cross-functional teams to rapidly ship, iterate, and optimize products based on user behavior, product metrics, and business objectives. Strong expertise in **Figma**, mobile design, **healthcare technology**, AI-assisted workflows, **design systems**, visual design, information architecture, motion design, and scalable multi-product ecosystems.

SKILLS

- **Consumer Mobile Product Design:** Mobile applications, consumer products, app experiences, feature ownership, user engagement, retention
- **Healthcare & HealthTech Design:** Healthcare experiences, patient journeys, digital health, medical applications, clinical workflows
- **AI Product Design & Innovation:** AI-powered products, AI-assisted workflows, intelligent systems, product innovation, automation
- **End-to-End Product Design:** Product strategy, feature design, product concepts, implementation, optimization, product ownership
- **User Flows & Interaction Design:** User flows, interaction models, task completion, experience architecture, workflow optimization
- **Information Architecture:** Complex information systems, content organization, navigation design, information hierarchy, clarity
- **Figma & Prototyping:** Figma, interactive prototypes, high-fidelity designs, rapid iteration, design validation
- **Design Systems & Components:** Design systems, component libraries, scalable patterns, reusable components, consistency
- **Healthcare Information Design:** Scientific content, medical information, patient education, information simplification, accessibility
- **Visual Design & Motion:** Visual hierarchy, typography, layout design, motion design, micro-interactions, polished interfaces
- **Multi-Product Ecosystems:** Product ecosystems, cross-platform experiences, product consistency, scalable frameworks, expansion
- **User Research & Validation:** User feedback, usability testing, behavior analysis, validation studies, iterative improvements
- **Cross-Functional Collaboration:** Founders, product teams, engineers, stakeholders, collaborative product development
- **Data-Driven Product Design:** Product metrics, user analytics, optimization strategies, engagement improvements, experimentation
- **AI-Assisted Design Workflows:** AI tools, rapid prototyping, workflow acceleration, design exploration, implementation efficiency

EXPERIENCE

CX by Design | Product Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Owned end-to-end product design initiatives across consumer applications and workflow-driven platforms improving engagement and usability.
- Translated complex requirements into intuitive user flows, polished interfaces, prototypes, and production-ready product experiences.
- Designed AI-assisted experiences, intelligent workflows, and information-rich interfaces simplifying complex user decisions.
- Built scalable design systems, reusable components, and interaction standards supporting rapid product expansion and consistency.
- Collaborated directly with product leaders and engineers accelerating delivery cycles, feature launches, and iterative improvements.
- Leveraged user feedback, behavioral insights, and product metrics driving measurable improvements in adoption and experience quality.

MyRentalSpot | Product Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Designed customer-facing product experiences improving onboarding efficiency, usability, and engagement across digital platforms.
- Created high-fidelity Figma prototypes, user flows, interaction systems, and implementation-ready product solutions.
- Conducted usability evaluations, user feedback analysis, and iterative refinements improving accessibility and adoption outcomes.
- Collaborated with developers and stakeholders delivering scalable design systems and customer-focused workflow improvements.
- Supported rapid product iterations, feature validation, and deployment activities improving product quality and consistency.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Dec 2025

- Facilitated collaborative workshops and innovation initiatives supporting customer-centered product experiences and digital solutions.
- Developed experience concepts, service improvements, and communication assets translating user needs into actionable opportunities.

Lighthouse Info System Pvt. Ltd | Associate Product Designer | Nagpur, India

June 2024 – Aug 2024

- Designed enterprise and customer-facing digital products improving usability, engagement, and operational efficiency.
- Conducted stakeholder discussions, workflow analyses, usability evaluations, and design reviews identifying optimization opportunities.
- Built user flows, design systems, prototypes, information architectures, and scalable interface frameworks supporting consistency.
- Created UX documentation, implementation guidance, QA validation processes, and product standards improving delivery quality.
- Collaborated with engineering teams refining product experiences, interaction systems, and scalable software solutions.

Phoenixzone Technologies Pvt. Ltd | Junior Product Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ digital product experiences and scalable UX systems improving engagement, usability, and customer satisfaction.
- Created user flows, wireframes, prototypes, mobile experiences, and interaction systems supporting rapid feature delivery.
- Partnered directly with stakeholders translating business goals into intuitive product solutions and measurable user outcomes.
- Leveraged AI-assisted workflows accelerating product exploration, design validation, implementation efficiency, and iteration speed.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
