PROFESSIONAL SUMMARY

Design Systems Designer with 2+ years of experience building **scalable component libraries**, maintaining **design systems**, and improving UI consistency across web and mobile platforms. Skilled in **Figma component architecture**, variants, auto layout, **token-based workflows**, and translating design standards into scalable reusable systems. Experienced collaborating with designers, engineers, and cross-functional teams to improve system adoption, workflow consistency, and implementation quality across product ecosystems. Strong expertise in **design QA**, documentation systems, interaction patterns, **AI-assisted prototyping workflows**, and scalable design operations supporting high-quality product experiences.

SKILLS

- **Design Systems & Components:** Design systems, component libraries, scalable UI systems, reusable components, interaction consistency, system adoption
- **Figma & Component Architecture:** Figma, auto layout, variants, properties, component structures, scalable component systems, UI consistency
- **Token-Based Design Systems:** Design tokens, token mapping, token workflows, scalable styling systems, system standardization, token consistency
- **Wireframing & Prototyping:** Wireframes, mockups, interactive prototypes, rapid prototyping, high-fidelity UI, production-ready assets
- **Documentation & System Guidance:** Component documentation, annotated specifications, interaction references, workflow artifacts, implementation guidance
- **Design QA & Auditing:** Design QA, interface auditing, pattern consistency, migration workflows, visual validation, system alignment
- **AI-Assisted Prototyping:** AI-assisted workflows, AI-generated prototypes, workflow automation, scalable prototyping, rapid design iteration
- **Cross-Functional Collaboration:** Designer collaboration, engineering collaboration, stakeholder communication, sprint collaboration, implementation support
- **Front-End & Developer Handoff:** Developer handoff, implementation constraints, front-end collaboration, responsive behaviors, workflow alignment
- **Interaction & Visual Design:** Interaction design, visual hierarchy, spacing systems, usability consistency, responsive layouts, interaction patterns
- **Research & Workflow Optimization:** Workflow analysis, iterative improvements, usability optimization, scalable design operations, workflow consistency
- **Accessibility & Usability:** Accessibility principles, usability refinement, interaction clarity, customer-centered systems, responsive interfaces
- **Product Design Operations:** Design libraries, pattern standardization, scalable workflows, product consistency, interface governance
- **Creative Problem Solving:** Rapid ideation, scalable workflow solutions, system refinement, interaction optimization, customer-focused thinking

EXPERIENCE

CX by Design | *Systems Design Intern* | New York, NY

Sept 2025 – Dec 2025

- Built scalable Figma components and reusable design systems improving workflow consistency and interface quality across web platforms.
- Created component variants, interaction states, auto layout systems, and production-ready assets supporting scalable product delivery.
- Translated design system standards into implementation-ready documentation, usage references, and scalable workflow guidance.
- Collaborated with designers and engineers validating component alignment, implementation quality, and system adoption across products.
- Conducted design QA reviews and interface audits identifying inconsistencies and improving reusable system patterns across workflows.
- Supported AI-assisted prototyping workflows preparing annotations, references, and scalable inputs for rapid product iteration.

MyRentalSpot | *UI/UX System Design Intern* | Orinda, CA

Aug 2025 – Sept 2025

- Redesigned onboarding workflows and scalable interaction systems improving usability and design consistency across responsive platforms.
- Built high-fidelity Figma and Framer prototypes validating component behaviors, workflow scalability, and interface responsiveness before launch.
- Conducted usability testing and synthesized qualitative findings into actionable UX improvements reducing friction across user journeys.
- Collaborated with engineering teams delivering UI specifications, responsive layouts, and documentation improving deployment readiness.
- Contributed reusable Figma components, scalable design patterns, and interaction systems supporting cohesive customer experiences across products.

NYC Design Factory | *Design and Innovation Volunteer* | New York, NY

Jan 2025 – Present

- Facilitated collaborative design sessions supporting scalable workflow systems and reusable interaction patterns across digital experiences.
- Developed prototypes, interaction models, and scalable UI concepts translating operational challenges into intuitive design solutions.
- Collaborated with cross-functional teams aligning workflow goals, system consistency, and interaction standards across projects.

Lighthouse Info System Pvt. Ltd | *Associate Systems Designer* | Nagpur, India

June 2024 – Aug 2024

- Designed responsive dashboards, scalable interfaces, and reusable workflow systems improving usability, hierarchy, and interaction clarity.
- Conducted stakeholder interviews and workflow sessions identifying friction points and standardization opportunities informing UX solutions.
- Built high-fidelity interfaces, reusable components, scalable layouts, and token-aware design systems supporting workflow consistency.
- Created UX documentation, QA checklists, interaction patterns, implementation guidelines, and migration workflows reducing engineering ambiguity.
- Collaborated with cross-functional teams refining design libraries, component systems, and scalable product experiences across platforms.

Phoenixzone Technologies Pvt. Ltd | *Junior Systems Designer* | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive web and mobile product flows improving navigation clarity, workflow efficiency, and interface consistency.
- Created wireframes, prototypes, reusable interaction systems, and scalable design patterns supporting rapid product iteration.
- Partnered directly with developers refining implementation feasibility, responsive behaviors, and component workflows across platforms.
- Leveraged AI-assisted prototyping workflows accelerating rapid design exploration, feature validation, and scalable system delivery

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
