PROFESSIONAL SUMMARY

UX Researcher with 2+ years of experience conducting **qualitative and quantitative research** for **AI-powered digital products**, enterprise workflows, and customer-centered product experiences across web and responsive platforms. Skilled in **usability testing**, user interviews, workflow analysis, **rapid discovery research**, and translating complex user behaviors into actionable product insights and recommendations. Experienced collaborating with product managers, designers, engineers, and cross-functional stakeholders to improve usability, workflow efficiency, AI-enabled experiences, and product decision-making across fast-paced environments. Strong expertise in UX research methodologies, **research synthesis**, **Dovetail**, **Qualtrics**, **AI-assisted research workflows**, usability validation, and insight communication supporting scalable human-centered product development.

SKILLS

- **UX Research & Discovery:** UX research, discovery research, evaluative research, workflow analysis, customer-centered research, usability validation
- **Qualitative Research Methods:** User interviews, diary studies, field research, contextual inquiry, stakeholder interviews, qualitative synthesis
- **Quantitative Research Methods:** Surveys, usability metrics, behavioral analysis, survey research, quantitative insights, research validation
- **Usability Testing & Evaluation:** Usability testing, prototype validation, workflow testing, interaction analysis, friction identification, iterative improvements
- **Research Synthesis & Insights:** Research synthesis, affinity mapping, insight communication, actionable recommendations, behavioral patterns, research storytelling
- **AI-Assisted Research Workflows:** Generative AI, AI-assisted synthesis, AI-enabled experiences, AI-supported analysis, scalable research workflows
- **Research Tools & Platforms:** Dovetail, Qualtrics, SurveyMonkey, research repositories, collaborative research tools, insight tracking
- **Cross-Functional Collaboration:** Product managers, designers, engineers, stakeholder communication, sprint collaboration, product alignment
- **Customer & Workflow Research:** Workflow mapping, customer pain points, operational workflows, user needs analysis, journey analysis
- **Product & Design Validation:** Solution validation, iterative testing, design feedback, concept validation, prototype refinement, UX optimization
- **Communication & Presentation:** Research reporting, insight presentations, workshop facilitation, stakeholder communication, recommendation frameworks
- **Analytical & Problem Solving:** Analytical thinking, organizational skills, pattern recognition, problem-solving, workflow optimization, strategic insights
- **Fast-Paced Product Environments:** Agile workflows, iterative product development, rapid research cycles, scalable product operations, execution support
- **Human-Centered Design:** Human-centered design, interaction behaviors, accessibility, responsive experiences, customer-focused systems

EXPERIENCE

CX by Design | *UX Research Intern* | New York, NY

Sept 2025 – Dec 2025

- Led qualitative and evaluative UX research initiatives improving usability, workflow efficiency, and AI-assisted product experiences across platforms.
- Conducted user interviews, usability testing, workflow analysis, rapid discovery research, and behavioral evaluations identifying customer pain points.
- Synthesized qualitative and quantitative findings into actionable recommendations influencing product direction and interaction improvements.
- Collaborated with product managers, designers, and engineers aligning research insights with product goals and implementation workflows.
- Utilized AI-assisted research workflows supporting research planning, synthesis, insight communication, and scalable analysis processes.
- Produced research documentation, usability reports, journey analyses, and stakeholder presentations improving product validation workflows.

MyRentalSpot | *UX Research and Design Intern* | Orinda, CA

Aug 2025 – Sept 2025

- Conducted usability testing, customer interviews, and workflow research initiatives improving onboarding experiences and customer engagement.
- Built research-informed wireframes and high-fidelity prototypes validating workflow scalability, interaction consistency, and usability improvements.
- Synthesized customer feedback, behavioral insights, and survey findings into actionable UX recommendations reducing friction across journeys.
- Collaborated with engineering teams, designers, and stakeholders refining workflows, interaction systems, and implementation readiness.
- Supported iterative product testing, rapid research cycles, and evaluative studies improving customer-centered experiences across platforms.

NYC Design Factory | *Design and Innovation Volunteer* | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and research-driven ideation sessions supporting innovative customer-centered product experiences.
- Developed workflow analyses, interaction concepts, and research-backed design recommendations translating user needs into scalable solutions.
- Collaborated with cross-functional teams aligning research findings, workflow goals, and product experience improvements across initiatives.

Lighthouse Info System Pvt. Ltd | *Associate UX Researcher* | Nagpur, India

June 2024 – Aug 2024

- Conducted stakeholder interviews, workflow research, usability evaluations, and customer feedback studies identifying operational pain points.
- Synthesized qualitative findings, usability metrics, and behavioral insights into strategic UX recommendations improving workflow efficiency.
- Built research-backed interfaces, scalable interaction systems, and usability validation frameworks supporting customer-centered product development.
- Created research documentation, insight reports, journey analyses, and presentations improving implementation alignment.
- Collaborated with cross-functional teams refining operational workflows, customer experiences, and scalable enterprise product systems.

Phoenixzone Technologies Pvt. Ltd | *Junior UX Researcher* | Pune, India

Jan 2024 – June 2024

- Conducted user interviews, usability testing, workflow evaluations, and interaction analysis improving navigation clarity and engagement quality.
- Created research-informed wireframes, prototypes, and interaction concepts supporting scalable UX systems and rapid product iteration.
- Partnered directly with developers and stakeholders translating customer insights into implementation-ready workflow improvements.
- Leveraged AI-assisted workflows accelerating research synthesis, behavioral analysis, and scalable product validation processes

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
