PROFESSIONAL SUMMARY

Industrial Designer with 3+ years of experience designing **customer-centered product concepts**, packaging systems, and scalable visual experiences across consumer-focused products and development environments. Skilled in **industrial design**, product visualization, **3D modeling**, concept sketching, **prototyping**, and translating customer insights into functional product solutions improving usability, presentation quality, and commercialization readiness. Experienced collaborating with engineering, marketing, sales, and **cross-functional stakeholders** to support end-to-end product development workflows from ideation through prototype refinement and presentation delivery. Strong expertise in **SolidWorks**, **KeyShot**, Adobe Creative Suite, design research, 3D CAD workflows, **packaging concepts**, rapid prototyping, AI-assisted design workflows, and scalable product systems supporting innovative packaging and product experiences.

SKILLS

- **Industrial Design & Product Strategy:** Industrial design, product strategy, customer-focused solutions, product innovation, design strategy
- **Product Research & User Insights:** Qualitative research, customer insights, trend analysis, observational research, end-user empathy
- **Concept Sketching & Ideation:** 2D sketching, ideation sessions, brainstorming systems, design visualization, rapid concept development
- **3D CAD & Product Modeling:** SolidWorks, 3D CAD design, prototype tooling, scalable product systems, CAD workflows
- **Rendering & Product Visualization:** KeyShot, renderings, visual storytelling, concept visualization, presentation systems
- **Packaging & Product Development:** Packaging concepts, product refinement, commercialization support, customer-focused packaging systems
- **Prototyping & Fabrication:** 3D printing, physical mockups, CNC familiarity, fabrication workflows, prototype evaluations
- **Adobe Creative Suite:** Photoshop, Illustrator, pitch decks, product presentations, visual communication systems
- **Cross-Functional Collaboration:** Engineering collaboration, marketing alignment, sales communication, stakeholder coordination
- **Product Development Workflows:** Workflow optimization, project documentation, milestone execution, scalable development systems
- **Presentation & Communication:** Customer presentations, executive storytelling, concept communication, presentation delivery
- **Research & Customer Empathy:** User empathy, customer behavior analysis, insight-driven design, usability evaluation
- **AI-Assisted Design Workflows:** AI-assisted workflows, rapid prototyping, scalable optimization, design efficiency improvements
- **Problem Solving & Innovation:** Critical thinking, functional optimization, customer-focused innovation, scalable design systems

EXPERIENCE

CX by Design | *Industrial Design Intern* | New York, NY

Sept 2025 – Dec 2025

- Designed customer-focused product concepts and scalable packaging systems improving usability, presentation quality, and commercialization readiness.
- Created concept sketches, 3D CAD models, renderings, and physical mockups supporting rapid ideation and prototype refinement workflows.
- Conducted qualitative research, customer journey evaluations, and trend analyses identifying opportunities for stronger functionality and packaging innovation.
- Collaborated with engineering, marketing, sales, and stakeholders aligning product solutions with customer expectations and business goals.
- Built product presentations, pitch decks, and scalable documentation systems improving communication consistency and stakeholder alignment.
- Contributed AI-assisted workflows, rapid prototyping initiatives, design critiques, and scalable design systems improving execution efficiency.

MyRentalSpot | *Product Design Intern* | Orinda, CA

Aug 2025 – Sept 2025

- Developed responsive product concepts and scalable visual systems improving usability, onboarding efficiency, and customer interaction quality.
- Built high-fidelity mockups, SolidWorks concepts, and prototype-ready assets validating implementation consistency before concept reviews.
- Conducted usability evaluations, customer feedback analysis, and design refinements improving accessibility, responsiveness, and presentation quality.
- Collaborated with developers, product teams, and stakeholders delivering production-ready systems and scalable implementation workflows.
- Supported rapid iteration cycles, prototype testing, feature refinement, concept reviews, and product critiques enhancing deployment quality.

NYC Design Factory | *Design and Innovation Volunteer* | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and ideation sessions supporting innovative customer-focused product experiences and scalable interaction systems.
- Developed workflow analyses, responsive design concepts, and communication assets translating customer needs into functional product solutions.
- Collaborated with cross-functional teams aligning customer journeys, design goals, and product innovation initiatives.

Lighthouse Info System Pvt. Ltd | *Associate Industrial Designer* | Nagpur, India

June 2024 – Aug 2024

- Designed responsive product systems, scalable packaging concepts, and customer-centered visual experiences improving usability and communication quality.
- Conducted stakeholder discussions, usability evaluations, customer journey analyses, and workflow reviews identifying opportunities for stronger functionality and product optimization.
- Built reusable layouts, scalable product systems, wireframes, and CAD workflows improving development consistency.
- Created technical documentation, product guidelines, and QA systems reducing inconsistencies across design workflows and implementation operations.
- Collaborated with engineering teams refining interaction systems, customer-focused interfaces, and scalable product experiences.

Phoenixzone Technologies Pvt. Ltd | *Junior Industrial Designer* | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive product concepts and scalable visual systems improving engagement, functionality, and presentation performance.
- Created concept sketches, prototypes, scalable mockups, renderings, and interaction systems supporting rapid product deployment workflows.
- Partnered directly with developers and stakeholders translating customer requirements into scalable product systems and design solutions.
- Leveraged AI-assisted workflows accelerating design refinement, usability validation, feature optimization, and scalable product improvements.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

G.H. Raison College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2024 – Dec 2025

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
