PROFESSIONAL SUMMARY

ERP UI/UX Designer with 3+ years of experience designing **enterprise web applications**, **responsive dashboards**, and **scalable digital systems** across business-focused software environments. Skilled in **UX/UI design**, **wireframing**, **prototyping**, usability testing, interaction design, and translating complex **business requirements into intuitive software experiences** improving usability, accessibility, workflow efficiency, and operational performance. Experienced collaborating with product managers, developers, analysts, and cross-functional stakeholders to support end-to-end product development workflows from requirements gathering through implementation within agile environments. Strong expertise in **Figma**, Adobe XD, Zeplin, InVision, **React**, **Angular**, **HTML**, **CSS**, Bootstrap, **responsive design systems**, data visualization, AI-assisted workflows, and scalable enterprise interaction systems supporting ERP and business application experiences.

SKILLS

- **ERP UX/UI Design & Enterprise Systems:** ERP systems, enterprise software, workflow optimization, operational dashboards, business applications
- **UX Strategy & Interaction Design:** UX strategy, interaction design, user-centered design, accessibility workflows, scalable UX systems
- **Wireframing & Prototyping:** Wireframes, prototypes, high-fidelity mockups, responsive interfaces, interaction systems
- **Figma & Design Platforms:** Figma, Adobe XD, Zeplin, InVision, Axure, Balsamiq, Visio
- **Frontend Development:** React, Angular, JavaScript, HTML5, CSS3, SCSS, Bootstrap, responsive web systems
- **Data Visualization & Analytics:** Dashboard systems, data visualization, Tableau familiarity, Power BI familiarity, Google Analytics 360
- **User Research & Testing:** User research, usability testing, A/B testing, analytics analysis, UX validation
- **Information Architecture & User Flows:** Information architecture, user flows, navigation systems, interaction consistency
- **Design Systems & Accessibility:** Design systems, reusable UI components, accessibility standards, visual consistency
- **API & Integration Workflows:** RESTful services, API integrations, scalable frontend systems, implementation workflows
- **Agile & SDLC Workflows:** Agile methodologies, sprint planning, Jira, SDLC workflows, continuous improvement systems
- **Cross-Functional Collaboration:** Product collaboration, engineering coordination, stakeholder communication, business requirement analysis
- **Technical Documentation & QA:** Technical documentation, UI guidelines, QA workflows, deployment consistency
- **AI-Assisted Design Workflows:** AI-assisted workflows, rapid prototyping, scalable optimization, design efficiency improvements
- **Problem Solving & Enterprise Innovation:** Critical thinking, enterprise UX solutions, scalable software systems, business-focused experiences

EXPERIENCE

CX by Design | ERP UX/UI Designer | New York, NY

Sept 2025 – Dec 2025

- Designed enterprise-focused web applications, responsive dashboards, and scalable interaction systems improving usability and workflow efficiency.
- Built high-fidelity Figma prototypes, wireframes, responsive layouts, and scalable UI systems supporting polished business application experiences.
- Conducted usability testing, workflow evaluations, A/B testing, analytics reviews, and UX refinements identifying opportunities for stronger accessibility optimization.
- Collaborated with product managers, developers, analysts, and stakeholders translating requirements into scalable ERP-focused design solutions.
- Presented interaction concepts, scalable UX systems, and implementation workflows during agile sprint reviews and collaborative design sessions.
- Contributed AI-assisted workflows, reusable design systems, rapid prototyping, and scalable interface systems improving deployment consistency.

MyRentalSpot | UX/UI Product Design Intern | Orinda, CA

Aug 2025 – Sept 2025

- Developed responsive web and mobile experiences improving onboarding efficiency, workflow consistency, and customer interaction quality.
- Built high-fidelity Figma prototypes, frontend layouts, scalable interaction systems, and responsive workflows validating experiences before launch.
- Conducted usability evaluations, customer feedback analysis, and UX refinements improving accessibility, responsiveness, and engagement quality.
- Collaborated with developers, product teams, and stakeholders delivering production-ready design systems and scalable implementation workflows.
- Supported rapid iteration cycles, usability testing, feature refinement, frontend validation, and UX improvements enhancing deployment quality.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and ideation sessions supporting innovative enterprise-focused digital experiences and scalable interaction systems.
- Developed workflow analyses, responsive interface concepts, and communication assets translating user needs into functional software solutions.
- Collaborated with cross-functional teams aligning customer journeys, usability goals, and business-focused design initiatives.

Lighthouse Info System Pvt. Ltd | Associate UX/UI Designer | Nagpur, India

June 2024 – Aug 2024

- Designed responsive dashboards, scalable web systems, and enterprise-focused digital experiences improving usability and communication quality.
- Conducted stakeholder discussions, usability evaluations, workflow analyses, and iterative design reviews identifying opportunities for stronger functionality and UX optimization.
- Built reusable layouts, scalable UI systems, wireframes, prototype-ready assets, and frontend workflows supporting consistency across software development cycles.
- Created technical documentation, UI guidelines, QA systems, and design standards reducing inconsistencies across implementation workflows.
- Collaborated with engineering teams refining interaction systems, accessibility workflows, RESTful integrations, and scalable software experiences.

Phoenixzone Technologies Pvt. Ltd | Junior UX Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive software experiences and scalable UX systems improving engagement, usability, and workflow performance.
- Created wireframes, prototypes, scalable UI components, frontend layouts, and interaction systems supporting deployment efficiency.
- Partnered directly with developers and stakeholders translating business requirements into scalable frontend systems and customer-focused solutions.
- Leveraged AI-assisted workflows accelerating usability validation, frontend optimization, feature refinement, and scalable software improvements.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
