PROFESSIONAL SUMMARY

UX/UI Engineer with 3+ years of experience designing **user-centered web applications**, responsive interfaces, and scalable digital systems across frontend and human-centered technology environments. Skilled in **UX/UI design, wireframing, prototyping, usability testing**, and translating user insights into intuitive software experiences improving accessibility, usability, and operational efficiency. Experienced collaborating with UX researchers, engineers, product teams, and stakeholders to support **end-to-end software development workflows** from discovery through implementation within agile environments. Strong expertise in **Figma, React, JavaScript, HTML, CSS, Git, design systems, frontend prototyping**, usability evaluation, AI-assisted workflows, and scalable interaction systems supporting mission-focused digital experiences.

SKILLS

- **UX/UI Design & Human-Centered Engineering:** User-centered design, interaction design, UX strategy, human-machine teaming, usability optimization
- **Wireframing & Prototyping:** Wireframes, mockups, prototypes, responsive interfaces, scalable interaction systems
- **Frontend Development:** React, Vue familiarity, Angular familiarity, JavaScript, HTML, CSS, responsive UI systems
- **Frontend Prototyping & UX Engineering:** UX engineering, frontend prototyping, scalable web applications, interaction workflows
- **Design Systems & UI Guidelines:** Design systems, reusable components, UI consistency, scalable interface systems
- **User Research & Testing:** Usability testing, qualitative research, user behavior analysis, UX validation, customer insights
- **Frontend Frameworks & Libraries:** React, Angular familiarity, Vue familiarity, D3 familiarity, scalable frontend systems
- **Software Development Tools:** Git, source control workflows, debugging systems, collaborative development environments
- **Cross-Functional Collaboration:** UX collaboration, engineering coordination, stakeholder communication, agile workflows
- **Software Architecture & Engineering:** Frontend architecture, software implementation, workflow optimization, scalable application systems
- **Accessibility & Usability Standards:** Accessibility systems, usability optimization, responsive implementation, interaction consistency
- **Presentation & Communication:** Stakeholder presentations, design communication, iterative reviews, collaborative storytelling
- **Problem Solving & Innovation:** Critical thinking, mission-focused systems, customer-focused solutions, scalable UX systems
- **AI-Assisted Design Workflows:** AI-assisted workflows, rapid prototyping, scalable optimization, design efficiency improvements
- **Technical Adaptability:** Learning new technologies, frontend frameworks, modern development systems, responsive workflows

EXPERIENCE

CX by Design | *UI/UX Engineer Intern* | New York, NY

Sept 2025 – Dec 2025

- Designed user-centered software prototypes and responsive interfaces improving usability, accessibility, and interaction quality across digital platforms.
- Built scalable frontend systems using React, JavaScript, HTML, CSS, and responsive workflows supporting polished web application experiences.
- Translated user insights, wireframes, and scalable design systems into production-ready prototypes improving implementation consistency and deployment speed.
- Collaborated with UX researchers, engineers, project stakeholders, and sponsors conducting iterative reviews and usability evaluations aligned with mission-focused objectives.
- Supported frontend testing, design critiques, workflow optimization, software implementation reviews, and scalable interface systems improving operational consistency.
- Contributed AI-assisted workflows, reusable interface systems, rapid prototyping initiatives, and scalable UX systems improving iteration efficiency.

MyRentalSpot | *UI/UX Product Design Intern* | Orinda, CA

Aug 2025 – Sept 2025

- Developed responsive web and mobile application experiences improving usability, onboarding efficiency, and interaction consistency across platforms.
- Built high-fidelity Figma prototypes, frontend layouts, and scalable interaction systems validating customer-focused experiences before launch.
- Conducted usability evaluations, customer feedback analysis, and UX refinements improving accessibility, responsiveness, and engagement quality.
- Collaborated with developers, product teams, and stakeholders delivering production-ready design systems and scalable implementation workflows.
- Supported rapid iteration cycles, usability testing, feature refinement, UX improvements, and frontend validation enhancing deployment quality.

NYC Design Factory | *Design and Innovation Volunteer* | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and ideation sessions supporting innovative human-centered digital experiences and scalable interaction systems.
- Developed workflow analyses, responsive interface concepts, and communication assets translating user needs into functional software solutions.
- Collaborated with cross-functional teams aligning customer journeys, usability goals, and mission-focused design initiatives.

Lighthouse Info System Pvt. Ltd | *Associate UI/UX Designer* | Nagpur, India

June 2024 – Aug 2024

- Designed responsive dashboards, scalable web systems, and user-centered digital experiences improving usability and communication quality.
- Conducted stakeholder discussions, usability evaluations, workflow analyses, and iterative design reviews identifying opportunities for stronger functionality and UX optimization.
- Built reusable layouts, scalable UI systems, wireframes, prototype-ready assets, and frontend workflows supporting consistency across software development cycles.
- Created technical documentation, UI guidelines, and QA systems reducing inconsistencies across implementation workflows and application operations.
- Collaborated with engineering teams refining interaction systems, accessibility workflows, and scalable software experiences.

Phoenixzone Technologies Pvt. Ltd | *Junior UI/UX Designer* | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive software experiences and scalable UX systems improving engagement, usability, and interaction performance.
- Created wireframes, prototypes, scalable UI components, frontend layouts, and interaction systems supporting rapid deployment workflows.
- Partnered directly with developers and stakeholders translating user requirements into scalable frontend systems and customer-focused solutions.
- Leveraged AI-assisted workflows accelerating usability validation, frontend optimization, feature refinement, and scalable software improvements.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
