PROFESSIONAL SUMMARY

Front-End Web Application Developer with 4+ years of experience designing and developing responsive, user-centered web applications and digital experiences across enterprise, AI-powered, and SaaS platforms. Skilled in **HTML5, CSS3, JavaScript, UX/UI design**, responsive layouts, wireframing, prototyping, **human-centered design**, and translating complex business workflows into intuitive interfaces that improve usability, accessibility, operational efficiency, and user satisfaction. Experienced collaborating with developers, business stakeholders, and cross-functional teams throughout the full software development lifecycle to deliver scalable front-end solutions, production-ready UI components, and seamless user experiences. Strong expertise in **Figma, Framer, Adobe Creative Suite, front-end development**, design systems, problem solving, user research, and rapid iteration.

SKILLS

- **Front-End Development:** HTML5, CSS3, JavaScript, responsive development, web applications, browser compatibility
- **UX/UI Design:** User interface design, user experience design, interaction design, human-centered design, interface optimization, usability
- **Responsive Web Design:** Mobile-first design, responsive layouts, adaptive interfaces, cross-device compatibility, accessibility, visual consistency
- **Wireframing & Prototyping:** Wireframes, interactive prototypes, high-fidelity mockups, Figma, Framer, interface validation
- **Human Factors Design:** User workflows, task optimization, workflow simplification, information architecture, intuitive navigation, user efficiency
- **Design Systems:** Component libraries, reusable UI components, scalable design systems, style guides, design documentation, consistency
- **Front-End Architecture:** UI components, interface development, application layouts, front-end optimization, implementation support, production readiness
- **Visual Design:** Typography, color theory, spacing, layout design, visual hierarchy, interface aesthetics
- **Problem Solving:** Critical thinking, debugging support, analytical thinking, rapid iteration, solution design, continuous improvement
- **Developer Collaboration:** Developer handoff, stakeholder collaboration, agile workflows, technical communication, implementation reviews, project coordination
- **Creative Tools:** Figma, FigJam, Framer, Adobe Photoshop, Adobe Illustrator, Adobe Creative Suite
- **Web Technologies:** HTML, CSS, JavaScript, SQL fundamentals, Ruby on Rails familiarity, responsive frameworks
- **Quality Assurance:** Interface testing, usability validation, design QA, production-ready assets, accessibility reviews, quality standards
- **Project Management:** Independent execution, multitasking, deadline management, organization, ownership, cross-functional collaboration

EXPERIENCE

CX by Design | Front-End UX/UI Designer Intern | New York, NY Sept 2025 – Dec 2025

- Designed responsive front-end interfaces improving application usability, workflow efficiency, accessibility, and user satisfaction.
- Created HTML-ready wireframes, interactive prototypes, scalable UI components, and responsive layouts accelerating front-end implementation.
- Translated complex business requirements into intuitive interfaces reducing user friction and improving navigation efficiency.
- Partnered with developers and stakeholders supporting debugging, interface refinements, implementation quality, and production readiness.
- Conducted usability testing, interface reviews, and iterative improvements strengthening user-centered application experiences.
- Delivered reusable design systems, front-end specifications, and production-ready assets improving development consistency.

MyRentalSpot | UX/UI Designer Intern | Orinda, CA Aug 2025 – Sept 2025

- Designed responsive web application interfaces improving customer engagement, usability, and digital workflows.
- Built Figma wireframes, user flows, prototypes, and reusable interface components supporting front-end development.
- Optimized layouts, navigation, typography, and responsive behavior improving accessibility and user experience.
- Collaborated with developers delivering implementation-ready assets aligned with technical requirements.

NYC Design Factory | Design and Innovation Volunteer | New York, NY Jan 2025 – Dec 2025

- Facilitated collaborative workshops and ideation sessions supporting innovative web experiences, digital solutions, and customer engagement.
- Developed website concepts, rapid prototypes, and responsive interfaces translating business ideas into actionable outcomes.

Lighthouse Info System Pvt. Ltd | Associate Front-End Designer | Nagpur, India June 2024 – Aug 2024

- Designed enterprise web applications, dashboards, and responsive interfaces improving operational workflows and usability.
- Conducted interface evaluations, stakeholder discussions, usability reviews, and design iterations identifying optimization opportunities.
- Built reusable component libraries, scalable design systems, UI documentation, and implementation guidelines improving consistency.
- Partnered with engineering teams supporting front-end implementation, quality assurance, accessibility, and production deployment.

Phoenixzone Technologies Pvt. Ltd | Front-End Product Designer | Pune, India Jan 2024 – June 2024

- Designed 20+ responsive web applications and user interfaces improving engagement, usability, and application performance.
- Created high-fidelity UI designs, interactive prototypes, reusable components, and responsive layouts supporting rapid development.
- Collaborated with business stakeholders and developers translating complex workflows into intuitive digital experiences.
- Leveraged AI-assisted workflows accelerating interface design, front-end iteration, implementation quality, and project delivery.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Raisoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
