PROFESSIONAL SUMMARY

Web Designer with 4+ years of experience designing and developing **user-centered**, responsive websites and digital experiences across enterprise, AI-powered, and web applications. Skilled in UX/UI design, **usability testing**, **heuristic evaluation**, human-centered design, wireframing, prototyping, **front-end development**, and translating user requirements into intuitive web solutions that improve usability, accessibility, and customer satisfaction. Experienced collaborating with product managers, engineers, graphic designers, and cross-functional stakeholders to create scalable web applications, optimize user experiences, and deliver production-ready digital solutions. Strong expertise in **Figma**, **HTML**, **CSS**, **JavaScript**, **Adobe Creative Suite**, **responsive web design**, information architecture, usability metrics, and browser compatibility.

SKILLS

- **Web Design & UX/UI:** Web design, UX/UI design, responsive websites, user-centered design, visual design, interface design
- **User Experience Research:** Usability testing, heuristic evaluation, human factors engineering, UX research, user feedback, usability analysis
- **Wireframing & Prototyping:** Wireframes, interactive prototypes, high-fidelity mockups, rapid prototyping, Figma, Framer
- **Front-End Development:** HTML5, CSS3, JavaScript, responsive development, front-end implementation, web production
- **Information Architecture:** Information architecture, navigation design, page hierarchy, user flows, interaction design, content organization
- **Graphic Design:** Adobe Creative Suite, Adobe Photoshop, Adobe Illustrator, visual assets, digital graphics, layout design
- **Web Development Tools:** HTML, CSS, JavaScript, browser compatibility, scripting languages, front-end technologies
- **Usability & Accessibility:** Accessibility, usability metrics, UX optimization, interface consistency, platform compatibility, design validation
- **Design Systems:** Component libraries, reusable UI patterns, scalable design systems, visual consistency, documentation, UI standards
- **Cross-Functional Collaboration:** Product managers, engineering teams, graphic designers, stakeholder communication, design reviews, agile collaboration
- **Requirements Analysis:** User requirements, UI consulting, functional specifications, design documentation, solution planning, implementation support
- **Problem Solving:** Critical thinking, analytical thinking, troubleshooting, innovation, continuous improvement, customer-focused solutions
- **Project Management:** Independent execution, multitasking, workflow coordination, deadline management, organization, project ownership
- **Quality Assurance:** Browser testing, usability validation, QA reviews, implementation testing, production readiness, performance optimization

EXPERIENCE

- CX by Design | Web Designer Intern** | New York, NY **Sept 2025 – Dec 2025**
- Designed responsive, user-centered websites improving usability, accessibility, engagement, and customer satisfaction across digital platforms.
 - Conducted usability testing, heuristic evaluations, and UX analysis identifying interface improvements and optimizing user experiences.
 - Created wireframes, interactive prototypes, high-fidelity mockups, and development-ready specifications accelerating implementation quality.
 - Collaborated with product managers, engineers, graphic designers, and stakeholders delivering scalable web applications aligned with business goals.
 - Improved browser compatibility, responsive layouts, interface consistency, and usability metrics through iterative design improvements.
 - Delivered reusable design systems, UI documentation, and implementation guidance supporting efficient front-end development.
- MyRentalSpot | UX/UI Designer Intern** | Orinda, CA **Aug 2025 – Sept 2025**
- Designed responsive web interfaces improving usability, navigation, customer engagement, and digital experience quality.
 - Created user flows, wireframes, Figma prototypes, and scalable interface solutions supporting modern web applications.
 - Performed usability evaluations, stakeholder reviews, and iterative design refinements improving accessibility and interface consistency.
 - Delivered production-ready UI assets aligned with user requirements and technical implementation goals.
- NYC Design Factory | Design and Innovation Volunteer** | New York, NY **Jan 2025 – Dec 2025**
- Facilitated collaborative workshops and ideation sessions supporting innovative web experiences, digital solutions, and customer engagement.
 - Developed website concepts, rapid prototypes, and responsive interfaces translating business ideas into actionable outcomes.
- Lighthouse Info System Pvt. Ltd | Associate Web Designer** | Nagpur, India **June 2024 – Aug 2024**
- Designed enterprise dashboards, responsive interfaces, and digital experiences improving usability, accessibility, and workflow efficiency.
 - Conducted heuristic evaluations, usability reviews, stakeholder discussions, and interface analysis identifying optimization opportunities.
 - Built reusable design systems, UI specifications, implementation documentation, and scalable interface components improving consistency.
 - Partnered with engineering teams supporting front-end implementation, browser compatibility, and production-ready delivery.
- Phoenixzone Technologies Pvt. Ltd | Web Designer** | Pune, India **Jan 2024 – June 2024**
- Designed 20+ responsive websites and user-centered digital experiences improving usability, engagement, and interface performance.
 - Created wireframes, high-fidelity mockups, interactive prototypes, and front-end-ready designs supporting rapid product delivery.
 - Translated business requirements into intuitive user interfaces, scalable web solutions, and optimized customer experiences.
 - Leveraged AI-assisted workflows accelerating design exploration, usability optimization, implementation efficiency, and project execution.

EDUCATION

Pace University, New York | *MS in Human Centered Design*
G.H. Raisoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2024 – Dec 2025
Sept 2020 – June 2024

FEATURED PROJECTS

- Claudit – AI-Powered Design Auditing Platform** | (Ongoing)
- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
 - Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
 - Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.
- Author** | (Ongoing)
- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
 - Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
 - Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
