PROFESSIONAL SUMMARY

Product Designer with 3+ years of experience designing **AI-powered SaaS products**, enterprise workflows, and user-centered digital experiences across complex business platforms. Skilled in **end-to-end product design**, product discovery, **customer research**, interaction design, **systems thinking**, wireframing, prototyping, and translating ambiguous business problems into intuitive experiences improving efficiency, usability, and decision-making. Experienced collaborating with product managers, engineers, founders, and cross-functional stakeholders to drive zero-to-one product initiatives from concept through production. Strong expertise in Figma, **AI-assisted design workflows**, design systems, customer interviews, rapid prototyping, interaction design, enterprise software, workflow optimization, and scalable product experiences supporting **fast-paced startup environments**.

SKILLS

- **AI Product Design & Innovation:** AI-powered products, AI experiences, workflow automation, intelligent systems, AI-assisted design
- **Product Design & Strategy:** End-to-end product design, product discovery, product thinking, feature ownership, product strategy
- **Customer Research & Validation:** Customer interviews, user research, usability testing, feedback synthesis, assumption validation
- **Interaction Design & Systems Thinking:** Interaction design, systems thinking, complex workflows, decision frameworks, scalable experiences
- **Wireframing & Prototyping:** User flows, wireframes, interactive prototypes, concept exploration, high-fidelity product design
- **Figma & Design Systems:** Figma, component libraries, design systems, reusable templates, scalable product foundations
- **Enterprise & SaaS Platforms:** SaaS products, enterprise software, business workflows, operational systems, customer platforms
- **AI-Assisted Design Workflows:** ChatGPT, AI prototyping, AI ideation, rapid iteration, accelerated design execution
- **Workflow Optimization & Automation:** Process improvement, workflow design, operational efficiency, automation experiences
- **Customer Journey Design:** Customer journeys, experience mapping, friction reduction, customer-centered design decisions
- **Cross-Functional Collaboration:** Product managers, engineers, executives, stakeholder alignment, collaborative product development
- **Technical Product Collaboration:** Technical constraints, engineering partnerships, implementation support, production-ready solutions
- **Rapid Iteration & Startup Execution:** Early-stage environments, ambiguity management, fast-paced execution, iterative improvements
- **Presentation & Communication:** Design storytelling, stakeholder presentations, product rationale, executive communication
- **Problem Solving & Innovation:** Strategic thinking, complex problem solving, scalable solutions, customer-focused innovation

EXPERIENCE

CX by Design | Product Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Owned end-to-end product design initiatives for SaaS platforms and workflow-driven applications improving usability and operational efficiency.
- Translated ambiguous business requirements into user journeys, wireframes, prototypes, and production-ready product experiences.
- Conducted customer interviews, usability testing, workflow evaluations, and research synthesis uncovering opportunities for product innovation.
- Designed AI-assisted workflows, automation concepts, and scalable interaction systems reducing friction across complex user journeys.
- Collaborated with product managers, engineers, and stakeholders driving alignment from early concepts through implementation.
- Built scalable design systems, reusable components, and product foundations supporting rapid product evolution and consistency.

MyRentalSpot | Product Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Developed responsive SaaS experiences improving onboarding efficiency, usability, and interaction consistency across customer workflows.
- Built high-fidelity Figma prototypes, scalable interaction systems, and customer-focused product experiences validating solutions before launch.
- Conducted customer feedback analysis, usability evaluations, and iterative refinements improving engagement and adoption outcomes.
- Collaborated with developers, product teams, and stakeholders delivering production-ready design systems and implementation workflows.
- Supported rapid iteration cycles, feature refinement, product validation, and usability testing enhancing deployment quality.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and ideation sessions supporting innovative digital products and scalable business solutions.
- Developed workflow analyses, interaction concepts, and communication assets translating customer needs into functional product experiences.
- Collaborated with cross-functional teams aligning customer journeys, usability goals, and innovation initiatives.

Lighthouse Info System Pvt. Ltd | Associate Product Designer | Nagpur, India

June 2024 – Aug 2024

- Designed responsive dashboards, enterprise workflows, and customer-centered digital experiences improving usability and communication quality.
- Conducted stakeholder discussions, usability evaluations, workflow analyses, and design reviews identifying opportunities for optimization.
- Built reusable layouts, scalable design systems, wireframes, prototype-ready assets, and workflow frameworks supporting consistency.
- Created UX documentation, design standards, QA systems, and operational guidelines reducing implementation inefficiencies.
- Collaborated with engineering teams refining interaction systems, workflow automation concepts, and scalable software experiences.

Phoenixzone Technologies Pvt. Ltd | Junior Product Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ digital product experiences and scalable UX systems improving engagement, usability, and workflow performance.
- Created wireframes, prototypes, scalable UI components, customer journeys, and interaction systems supporting rapid product delivery.
- Partnered directly with stakeholders translating business requirements into scalable SaaS and workflow-driven product solutions.
- Leveraged AI-assisted workflows accelerating research synthesis, design iteration, validation processes, and implementation efficiency.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
