PROFESSIONAL SUMMARY

Product Designer with 4+ years of experience designing intuitive, user-centered digital experiences for enterprise, SaaS, AI-powered, and web applications. Skilled in **UI design**, visual design, interaction design, **wireframing**, rapid prototyping, user flows, **component-based design systems**, and translating business requirements into scalable web and mobile interfaces that improve usability, accessibility, workflow efficiency, and customer satisfaction. Experienced collaborating with product managers, engineers, UX researchers, and cross-functional stakeholders to deliver production-ready designs through **user research**, usability testing, iterative design, and agile product development. Strong expertise in Figma, Framer, Adobe Creative Suite, **responsive design**, design systems, user empathy, critical thinking, and design collaboration.

SKILLS

- **UI & Visual Design:** User interface design, visual design, high-fidelity mockups, responsive layouts, visual hierarchy, accessibility
- **Interaction Design:** Interaction design, user flows, task flows, interface behaviors, navigation design, interaction patterns
- **Wireframing & Prototyping:** Wireframes, rapid prototyping, interactive prototypes, high-fidelity prototypes, Figma, Framer
- **Design Systems:** Component libraries, component-based design systems, scalable UI systems, reusable patterns, visual consistency, documentation
- **Responsive Design:** Responsive web design, mobile-first design, adaptive interfaces, cross-platform experiences, accessibility, browser compatibility
- **User Research & Testing:** User research, usability testing, heuristic evaluation, research synthesis, behavioral insights, design validation
- **UX Strategy:** Human-centered design, design thinking, customer journeys, information architecture, experience strategy, problem solving
- **Product Design:** End-to-end product design, feature design, product workflows, UI execution, product usability, experience optimization
- **Cross-Functional Collaboration:** Product managers, engineers, UX researchers, stakeholder communication, design critiques, agile collaboration
- **Front-End Collaboration:** HTML, CSS, JavaScript fundamentals, implementation support, developer handoff, design specifications
- **Creative Tools:** Figma, FigJam, Framer, Adobe Photoshop, Adobe Illustrator, Adobe Creative Suite
- **Quality & Documentation:** Design documentation, UI specifications, QA reviews, implementation guidance, production-ready assets, quality assurance
- **Critical Thinking:** Analytical thinking, creative problem solving, user empathy, design iteration, innovation, continuous improvement
- **Project Management:** Independent execution, deadline management, multitasking, ownership, organization, workflow coordination

EXPERIENCE

CX by Design | Product Designer Intern | New York, NY **Sept 2025 – Dec 2025**

- Designed end-to-end web and mobile experiences improving usability, accessibility, workflow efficiency, and customer satisfaction.
- Created wireframes, user flows, high-fidelity mockups, interactive prototypes, and component-based design systems accelerating product delivery.
- Translated business requirements into intuitive interfaces collaborating closely with product managers, engineers, and stakeholders.
- Conducted user research, usability testing, design critiques, and iterative improvements strengthening user-centered product decisions.
- Delivered development-ready UI specifications, reusable components, and scalable design documentation improving implementation quality.
- Applied user empathy, visual design, and interaction design principles creating polished and consistent product experiences.

MyRentalSpot | UX/UI Designer Intern | Orinda, CA **Aug 2025 – Sept 2025**

- Designed responsive web interfaces and digital experiences improving customer engagement, usability, and interface consistency.
- Built user flows, wireframes, Figma prototypes, and scalable interface components supporting rapid product development.
- Performed usability testing, stakeholder reviews, and iterative design refinements improving accessibility and workflow efficiency.
- Collaborated with product teams delivering production-ready designs aligned with technical and business objectives.

NYC Design Factory | Design and Innovation Volunteer | New York, NY **Jan 2025 – Dec 2025**

- Facilitated collaborative workshops and ideation sessions supporting innovative web experiences, digital solutions, and customer engagement.
- Developed website concepts, rapid prototypes, and responsive interfaces translating business ideas into actionable outcomes.

Lighthouse Info System Pvt. Ltd | Associate Product Designer | Nagpur, India **June 2024 – Aug 2024**

- Designed enterprise dashboards, responsive interfaces, and digital workflows improving usability, accessibility, and operational efficiency.
- Conducted usability evaluations, stakeholder workshops, and interface reviews identifying opportunities for UX improvements.
- Built reusable component libraries, scalable design systems, UI documentation, and implementation standards improving consistency.
- Partnered with engineering teams supporting front-end implementation, QA validation, and production-ready delivery.

Phoenixzone Technologies Pvt. Ltd | Product Designer | Pune, India **Jan 2024 – June 2024**

- Designed 20+ user-centered web and mobile experiences improving engagement, usability, and product performance.
- Created high-fidelity interfaces, wireframes, prototypes, and interaction patterns supporting agile product development.
- Collaborated with product managers and developers translating user requirements into scalable digital experiences.
- Leveraged AI-assisted workflows accelerating design exploration, rapid prototyping, usability improvements, and implementation efficiency.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2024 – Dec 2025

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
