## PROFESSIONAL SUMMARY

**Web Developer** with 4+ years of experience designing and developing responsive, high-performance websites and user-centered digital experiences across enterprise, SaaS, and nonprofit platforms. Skilled in **HTML5, CSS3, Bootstrap, JavaScript, jQuery, Figma, responsive web development, front-end architecture**, and transforming **client requirements** into scalable, accessible, and production-ready web solutions that improve performance, usability, and user engagement. Experienced collaborating with designers, developers, stakeholders, and cross-functional teams to build intuitive websites, optimize front-end performance, and deliver modern digital experiences. Strong expertise in **site architecture**, UI implementation, responsive frameworks, **Adobe Creative Suite**, **web optimization**, and front-end best practices.

## SKILLS

- **Front-End Development:** HTML5, CSS3, Bootstrap, JavaScript, jQuery, responsive web development
- **Web Design & UI:** Figma, responsive design, UI implementation, interface design, layout systems, user-centered design
- **Site Architecture:** Website architecture, navigation structure, information architecture, scalable websites, usability optimization, page hierarchy
- **Responsive Development:** Mobile-first design, cross-browser compatibility, responsive layouts, adaptive interfaces, accessibility, performance optimization
- **JavaScript Development:** JavaScript, jQuery, DOM manipulation, interactive components, front-end scripting, UI behaviors
- **HTML & CSS:** Semantic HTML5, CSS3, Flexbox, Grid, reusable stylesheets, clean code
- **Design to Development:** Figma implementation, design handoff, UI specifications, pixel-perfect development, front-end integration, component development
- **Website Performance:** Performance optimization, technical SEO, loading speed, QA testing, browser testing, website maintenance
- **Creative Tools:** Adobe Photoshop, Adobe Illustrator, Adobe Creative Suite, Figma, Framer, FigJam
- **User Experience:** User journeys, interaction design, wireframing, rapid prototyping, usability testing, interface optimization
- **Collaboration & Communication:** Client requirements, stakeholder communication, developer collaboration, cross-functional teamwork, project ownership, presentations
- **Problem Solving:** Debugging, troubleshooting, analytical thinking, critical thinking, solution development, continuous improvement
- **Project Management:** Independent execution, deadline management, multitasking, workflow coordination, organization, agile collaboration
- **Version Control & Development:** Git fundamentals, front-end workflows, reusable components, clean architecture, documentation, code quality

## EXPERIENCE

- CX by Design | Front-End Web Developer Intern | New York, NY** **Sept 2025 – Dec 2025**
- Developed responsive websites and front-end interfaces improving usability, accessibility, website performance, and customer engagement.
  - Translated Figma mockups into responsive HTML5, CSS3, Bootstrap, and JavaScript interfaces accelerating implementation quality.
  - Built scalable front-end components, responsive layouts, and optimized site architecture supporting seamless user experiences.
  - Improved website performance through responsive optimization, QA validation, browser compatibility testing, and interface refinements.
  - Collaborated with developers, designers, and stakeholders delivering production-ready web solutions aligned with client requirements.
  - Delivered reusable front-end documentation, implementation standards, and optimized interfaces supporting scalable development.
- MyRentalSpot | UX/UI Designer Intern | Orinda, CA** **Aug 2025 – Sept 2025**
- Designed responsive web interfaces and customer-focused digital experiences improving navigation, usability, and engagement.
  - Created wireframes, Figma prototypes, responsive layouts, and interactive user interfaces supporting modern web applications.
  - Optimized user flows, information architecture, and interface consistency improving website usability and customer satisfaction.
  - Partnered with stakeholders delivering implementation-ready designs aligned with technical requirements and business goals.
- NYC Design Factory | Design and Innovation Volunteer | New York, NY** **Jan 2025 – Dec 2025**
- Facilitated collaborative workshops and ideation sessions supporting innovative web experiences, digital solutions, and customer engagement.
  - Developed website concepts, rapid prototypes, and responsive interfaces translating business ideas into actionable outcomes.
- Lighthouse Info System Pvt. Ltd | Associate UX Designer | Nagpur, India** **June 2024 – Aug 2024**
- Designed enterprise dashboards, responsive interfaces, and digital experiences improving usability, accessibility, and workflow efficiency.
  - Conducted UX evaluations, interface reviews, stakeholder discussions, and usability analysis identifying front-end improvements.
  - Built reusable design systems, interface specifications, implementation documentation, and scalable UI components supporting consistency.
  - Collaborated with engineering teams supporting responsive implementation, quality assurance, and production-ready delivery.
- Phoenixzone Technologies Pvt. Ltd | Graphic Designer | Pune, India** **Jan 2024 – June 2024**
- Developed 20+ responsive websites and user-centered interfaces improving engagement, website usability, and front-end performance.
  - Created HTML5-ready layouts, Figma prototypes, interactive components, and scalable design systems supporting rapid delivery.
  - Partnered directly with stakeholders translating client requirements into responsive web solutions and intuitive digital experiences.
  - Leveraged AI-assisted workflows accelerating front-end development, design iteration, implementation efficiency, and project execution.

## EDUCATION

**Pace University, New York | MS in Human Centered Design**  
**G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science**

**Sept 2024 – Dec 2025**  
**Sept 2020 – June 2024**

## FEATURED PROJECTS

- Claudit – AI-Powered Design Auditing Platform | (Ongoing)**
- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
  - Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
  - Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.
- Author | (Ongoing)**
- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
  - Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
  - Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

**BreathFree | Quit Smoking & Behavioral Health App**

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

**eBay UX Research Case Study**

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

**Therapod | AR Wellness Experience**

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

**ACHIEVEMENTS & PUBLICATIONS**

---

**Research Papers:**

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

**Copyright:** Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
