PROFESSIONAL SUMMARY

Industrial Designer with 2+ years of experience designing **packaging concepts**, high-fidelity product visualizations, and branded digital experiences across physical and digital platforms. Skilled in **structural packaging design**, **3D rendering**, **CAD modeling**, and translating brand concepts into **production-ready packaging solutions** and photorealistic marketing assets. Experienced collaborating with engineering, marketing, and cross-functional teams to improve product presentation, visual consistency, and scalable packaging workflows. Strong expertise in **SolidWorks**, **Blender**, **KeyShot**, Adobe Creative Suite, visual storytelling, rendering workflows, and production-ready design systems supporting consumer-facing product experiences.

SKILLS

- **Industrial Design & Packaging:** Industrial design, packaging concepts, structural packaging, primary packaging, secondary packaging, packaging visualization
- **3D Modeling & CAD:** SolidWorks, Rhino concepts, CAD modeling, production-ready CAD files, structural modeling, packaging systems
- **Rendering & Visualization:** KeyShot, Blender, photorealistic rendering, product visualization, rendering workflows, presentation visuals
- **Visual Design & Branding:** Typography, hierarchy, visual consistency, branding systems, campaign imagery, cosmetic packaging aesthetics
- **Adobe Creative Suite:** Adobe Photoshop, Illustrator, InDesign, Adobe XD, production-ready assets, marketing visuals
- **Packaging & Product Development:** Packaging workflows, design refinement, concept development, scalable packaging systems, product experiences
- **Website & Marketing Assets:** Website imagery, campaign visuals, tradeshow banners, promotional graphics, branded visual assets
- **Research & User-Centered Design:** User-centered design, workflow analysis, iterative improvements, customer-focused experiences, design research
- **Cross-Functional Collaboration:** Engineering collaboration, marketing collaboration, sales collaboration, workflow alignment, stakeholder communication
- **Prototyping & Visualization:** Interactive prototypes, packaging mockups, visualization systems, concept presentations, rapid iteration workflows
- **Documentation & Production:** Design documentation, annotated specifications, production guidelines, implementation-ready assets, workflow artifacts
- **Creative Problem Solving:** Ideation, rapid experimentation, scalable design solutions, visual exploration, concept refinement, innovation
- **Product Experience Design:** Consumer product experiences, visual presentation, interface consistency, branding alignment, usability optimization
- **Digital & Physical Design Systems:** Packaging systems, scalable layouts, product consistency, integrated branding, production workflows

EXPERIENCE

CX by Design | *UI Design Intern* | New York, NY

Sept 2025 – Dec 2025

- Designed branded packaging concepts and high-fidelity product visuals improving presentation quality and visual consistency across digital platforms.
- Built 3D models, packaging mockups, and production-ready CAD visual assets translating brand concepts into scalable packaging experiences.
- Created reusable design systems, marketing visuals, and photorealistic renders supporting campaign presentations and product storytelling.
- Collaborated with engineering, sales, and marketing teams refining packaging workflows, structural concepts, and branded experiences.
- Conducted design reviews, workflow analysis, and visual refinement improving presentation clarity and packaging consistency across deliverables.
- Produced annotated specifications, production-ready assets, and implementation documentation supporting scalable product delivery.

MyRentalSpot | *UI/UX Design Intern* | Orinda, CA

Aug 2025 – Sept 2025

- Redesigned branded digital experiences and visual workflows improving usability and customer engagement across responsive platforms.
- Built high-fidelity Figma and Blender visualizations validating interaction states, visual consistency, and scalable design workflows.
- Conducted usability testing and synthesized qualitative findings into actionable design improvements reducing friction across user journeys.
- Collaborated with engineering teams delivering visual specifications, responsive layouts, and assets improving implementation readiness.
- Contributed reusable visual components and scalable interaction patterns supporting consistent product experiences across platforms.

NYC Design Factory | *Design and Innovation Volunteer* | New York, NY

Jan 2025 – Present

- Facilitated ideation workshops and collaborative design sessions supporting customer-centered product concepts and visual experiences.
- Developed prototypes, product visualizations, interaction models, and creative concepts translating challenges into scalable design solutions.
- Collaborated with cross-functional teams aligning branding systems, workflow goals, and product presentation strategies across projects.

Lighthouse Info System Pvt. Ltd | *Associate UI/UX Designer* | Nagpur, India

June 2024 – Aug 2024

- Designed branded dashboards, visual interfaces, and product presentation systems improving hierarchy, usability, and visual clarity.
- Conducted stakeholder interviews and workflow sessions identifying branding requirements, operational goals, and visual refinement opportunities.
- Built high-fidelity interfaces, reusable visual systems, scalable layouts, and branded assets supporting workflow consistency and presentation quality.
- Created design documentation, QA checklists, interaction patterns, and implementation guidelines reducing inconsistencies across deliverables.
- Collaborated with cross-functional teams refining visual systems, customer experiences, and scalable workflow solutions across platforms.

Phoenixzone Technologies Pvt. Ltd | *Junior Designer* | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive product experiences and branded visual systems improving customer engagement and presentation consistency.
- Created mockups, prototypes, product visualizations, and interaction concepts focused on scalable design systems and usability optimization.
- Partnered directly with developers refining implementation feasibility, visual behaviors, and responsive product presentation workflows.
- Leveraged AI-assisted visualization workflows accelerating rapid design iteration, rendering exploration, and scalable product validation

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
