PROFESSIONAL SUMMARY

UI Design Engineer with 2+ years of experience designing responsive interfaces, **interactive digital experiences**, and **high-fidelity prototypes** across advanced technology platforms. Skilled in interaction design, **rapid prototyping**, **motion-driven interfaces**, usability testing, and translating complex technical constraints into fluid user-centered experiences. Experienced collaborating with engineers, researchers, and cross-functional teams to improve responsiveness, workflow precision, interaction fidelity, and interface consistency across emerging computing environments. Strong expertise in Figma, SwiftUI concepts, **React-based prototyping**, design systems, animation behaviors, UX research, and implementation-ready interface systems supporting scalable **next-generation applications**.

SKILLS

- **UI Design & Interaction Systems:** UI design, interaction systems, interface behaviors, motion design, fluid interactions, responsive experiences
- **Wireframing & Prototyping:** Wireframes, mockups, interactive prototypes, workflow mapping, interface design, rapid prototyping, user flows
- **Advanced Interface Design:** High-fidelity interfaces, animation systems, interaction feedback, perceptual responsiveness, interface precision
- **Figma & Design Systems:** Figma, auto layout, components, variants, design systems, scalable UI systems, interface consistency
- **Prototype Engineering:** React, Three.js, WebGPU concepts, browser-based prototyping, implementation workflows, prototype iteration
- **Apple Framework Concepts:** SwiftUI concepts, UIKit familiarity, AppKit concepts, interaction systems, interface animation workflows
- **Programming & Front-End Systems:** HTML, CSS, JavaScript, Objective-C familiarity, C/C++ concepts, responsive engineering workflows
- **Research & Testing:** UX research, usability testing, workflow analysis, iterative improvements, interaction validation, behavioral insights
- **Human-Centered Design:** Accessibility principles, inclusive experiences, empathy-driven design, cognitive workflows, user-centered systems
- **Cross-Functional Collaboration:** Engineers, researchers, neuroscience collaboration, workflow alignment, design critiques, product communication
- **Documentation & Handoff:** UX documentation, annotated specifications, interface mappings, workflow artifacts, implementation-ready assets
- **Visual Design & Motion:** Typography, spacing, hierarchy, visual consistency, animation behaviors, interaction fidelity, motion systems
- **Creative Problem Solving:** Ideation, rapid experimentation, prototype iteration, interaction refinement, scalable workflow solutions
- **Emerging Technology UX:** Neural interfaces, adaptive systems, multimodal interactions, advanced computing experiences, precision interfaces

EXPERIENCE

CX by Design | UI Design Engineer Intern | New York, NY **Sept 2025 – Dec 2025**

- Designed responsive interfaces and high-fidelity digital experiences improving usability, interaction precision, and workflow clarity across platforms.
- Built wireframes, interaction flows, prototypes, and motion-driven interface systems translating technical requirements into scalable user-centered experiences.
- Created reusable Figma components, scalable design systems, and interface behaviors supporting rapid implementation consistency across products.
- Collaborated with engineers, researchers, and cross-functional teams refining interaction logic, animation behaviors, and responsive workflow experiences.
- Conducted usability testing, workflow analysis, and interaction validation identifying friction points and improving interface responsiveness.
- Produced annotated specifications, implementation-ready assets, and developer handoff documentation supporting scalable product delivery.

MyRentalSpot | UI Design Intern | Orinda, CA **Aug 2025 – Sept 2025**

- Redesigned onboarding workflows and responsive digital experiences improving usability across customer-facing platforms.
- Built high-fidelity Figma and Framer prototypes validating interaction states, workflow scalability, and interface responsiveness before development.
- Conducted usability testing and synthesized qualitative findings into actionable UX improvements reducing friction across user journeys.
- Collaborated with engineering teams delivering interface specifications, responsive layouts, and implementation documentation improving development readiness.
- Contributed reusable Figma components and scalable interaction patterns supporting interface consistency across responsive product experiences.

NYC Design Factory | Design and Innovation Volunteer | New York, NY **Jan 2025 – Present**

- Facilitated workshops, journey mapping sessions, and rapid ideation exercises supporting experimental product experiences and workflows.
- Developed wireframes, prototypes, interaction models, and UX concepts translating complex challenges into scalable interface solutions.
- Collaborated with cross-functional teams aligning interaction patterns, workflow goals, and user-centered experiences across digital products.

Lighthouse Info System Pvt. Ltd | Associate UI/UX Designer | Nagpur, India **June 2024 – Aug 2024**

- Designed responsive dashboards, operational interfaces, and interaction systems improving usability, hierarchy, and interface responsiveness.
- Conducted stakeholder interviews and workflow sessions identifying user behaviors, operational requirements, and friction informing UX solutions.
- Built high-fidelity interfaces, reusable components, scalable layouts, and motion-aware interaction systems supporting workflow consistency.
- Created UX documentation, QA checklists, interaction patterns, and implementation guidelines reducing inconsistencies and engineering ambiguity.
- Collaborated with cross-functional teams refining user flows, interface consistency, and scalable workflow experiences across enterprise platforms.

Phoenixzone Technologies Pvt. Ltd | Junior UI/UX Designer | Pune, India **Jan 2024 – June 2024**

- Designed 20+ responsive web and mobile product flows improving navigation clarity, workflow efficiency, and interaction responsiveness.
- Created wireframes, prototypes, operational interfaces, and interaction states focused on scalable UX systems and usability optimization.
- Partnered directly with developers refining implementation feasibility, responsive behaviors, animation logic, and workflow interactions.
- Leveraged AI-assisted prototyping workflows accelerating rapid interface iteration, interaction exploration, and scalable design validation.

EDUCATION

Pace University, New York | *MS in Human Centered Design* **Sept 2024 – Dec 2025**
G.H. Raison College of Engineering | *Bachelor of Engineering in Computer Science* **Sept 2020 – June 2024**

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
 - Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
 - User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
 - Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
- Copyright:** Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
