PROFESSIONAL SUMMARY

UI/UX Designer with 2+ years of experience designing intuitive, **user-centered software products** and digital experiences across AI-powered, enterprise, and SaaS platforms. Skilled in **UX research, interaction design**, visual design, user flows, wireframing, **high-fidelity prototyping**, and transforming product ideas into development-ready solutions that improve usability, workflow efficiency, and user engagement. Experienced collaborating with product managers, engineers, researchers, and cross-functional teams to deliver impactful product features from concept through implementation. Strong expertise in **Figma**, design systems, web and mobile design, user-centered design, development handoff, usability testing, visual communication, and data-informed product design.

SKILLS

- **UX Design & User Experience:** User experience design, interaction design, user-centered design, usability, design thinking, workflow optimization
- **User Research & Strategy:** User research, user interviews, data-informed design, behavioral insights, user validation, design decisions
- **User Flows & Information Architecture:** User flows, information architecture, journey mapping, task analysis, navigation design, interaction patterns
- **Wireframing & Prototyping:** Wireframing, rapid prototyping, high-fidelity prototypes, interactive mockups, concept validation, usability testing
- **Visual Design & UI:** Visual design, interface design, typography, color theory, layout design, visual hierarchy
- **Figma & Design Tools:** Figma, FigJam, Framer, Adobe Photoshop, Adobe Illustrator, Adobe Creative Suite
- **Design Systems & Components:** Design systems, component libraries, reusable components, UI consistency, style guides, scalable interfaces
- **Web & Mobile Design:** Responsive design, mobile-first design, web applications, mobile applications, adaptive interfaces, cross-platform experiences
- **Product Design:** Product features, feature design, product strategy, concept development, product thinking, user value
- **Development Handoff:** Design specifications, developer handoff, documentation, production assets, implementation support, engineering collaboration
- **Cross-Functional Collaboration:** Product managers, engineers, researchers, stakeholder communication, presentation skills, collaborative design
- **Problem Solving & Iteration:** Design rationale, feedback integration, iterative design, creative problem solving, continuous improvement, analytical thinking
- **AI & Modern Workflows:** AI-assisted design, ChatGPT, Cursor, Framer AI, rapid ideation, workflow acceleration
- **Project Management & Execution:** Deadline management, multitasking, organization, quality assurance, agile collaboration, project delivery

EXPERIENCE

CX by Design | UI/UX Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Designed user-centered product features improving usability, workflow efficiency, engagement, and customer satisfaction.
- Translated product ideas, research insights, and business requirements into intuitive user experiences and development-ready solutions.
- Created user flows, wireframes, high-fidelity prototypes, and interactive interfaces supporting feature implementation quality.
- Applied UX research, usability testing, interaction design, and visual design principles improving product adoption and user engagement.
- Collaborated with product managers, engineers, researchers, and stakeholders refining design concepts, implementation priorities, and feature quality.
- Delivered scalable design systems, development specifications, and production-ready assets supporting successful product delivery.

MyRentalSpot | UI/UX Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Designed intuitive user experiences and responsive interfaces improving usability, engagement, workflow efficiency, and accessibility.
- Built user flows, wireframes, interactive prototypes, and scalable design systems supporting product goals and customer needs.
- Conducted usability evaluations, stakeholder feedback analysis, and iterative refinements improving interface clarity and user satisfaction.
- Collaborated with product stakeholders delivering development-ready designs aligned with business objectives and implementation requirements.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Dec 2025

- Facilitated collaborative workshops and ideation sessions supporting innovative web experiences, digital solutions, and customer engagement.
- Developed website concepts, rapid prototypes, and responsive interfaces translating business ideas into actionable outcomes.

Lighthouse Info System Pvt. Ltd | Associate UI/UX Designer | Nagpur, India

June 2024 – Aug 2024

- Designed enterprise interfaces, dashboards, and software experiences improving usability, communication quality, and workflow efficiency.
- Conducted stakeholder discussions, usability evaluations, UX analyses, and interface reviews identifying optimization opportunities.
- Built reusable design systems, interaction patterns, development-ready assets, and scalable UI components supporting product consistency.
- Created design documentation, component specifications, QA processes, and implementation standards improving engineering handoff quality.

Phoenixzone Technologies Pvt. Ltd | UI/UX Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ user-centered interfaces and software experiences improving usability, engagement, workflow performance, and satisfaction.
- Created user flows, wireframes, high-fidelity prototypes, visual interfaces, and responsive layouts supporting rapid feature delivery.
- Partnered directly with product teams translating business requirements into intuitive product experiences and scalable design solutions.
- Leveraged AI-assisted workflows accelerating design exploration, prototyping, iteration cycles, implementation efficiency, and product quality.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Raisoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
