PROFESSIONAL SUMMARY

Product/UX Analyst with 4+ years of experience analyzing **user journeys**, optimizing digital workflows, documenting product requirements, and improving user experiences across enterprise, AI-powered, and SaaS platforms. Skilled in UX analysis, **workflow mapping**, information architecture, user flows, interaction design, usability evaluation, and translating product ideas into clear development-ready specifications that improve usability, navigation, and operational efficiency. Experienced collaborating with founders, product managers, engineers, and cross-functional teams to identify usability gaps, refine product workflows, and deliver scalable digital solutions. Strong expertise in **Figma, HTML, CSS, JavaScript, UX documentation**, process analysis, and logical problem solving.

SKILLS

- **Product Analysis & UX:** Product analysis, UX analysis, user journey analysis, usability evaluation, product improvement, user-centered design
- **Workflow Analysis:** Workflow mapping, process documentation, user flows, logical analysis, task flows, operational workflows
- **Information Architecture:** Information architecture, navigation design, screen mapping, interaction patterns, content organization, interface structure
- **Requirements Documentation:** Product specifications, functional requirements, design documentation, implementation guides, workflow documentation, process mapping
- **UX Research & Evaluation:** User research, usability testing, heuristic evaluation, stakeholder feedback, behavioral analysis, design validation
- **Wireframing & Prototyping:** Wireframing, interactive prototypes, high-fidelity mockups, concept validation, Figma, Framer
- **Interface Optimization:** UX optimization, navigation improvement, interface consistency, workflow refinement, usability improvements, accessibility
- **Front-End Technologies:** HTML, CSS, JavaScript, React fundamentals, responsive interfaces, web technologies
- **Product Collaboration:** Product managers, engineering collaboration, founder collaboration, stakeholder communication, design reviews, implementation support
- **Problem Solving:** Critical thinking, analytical thinking, logical reasoning, troubleshooting, solution development, continuous improvement
- **Project Management:** Independent execution, deadline management, multitasking, organization, workflow coordination, project ownership
- **Documentation & Quality:** QA documentation, quality assurance, specification reviews, design consistency, implementation accuracy, production readiness
- **Digital Tools:** Figma, FigJam, Adobe Creative Suite, Jira, Notion, Microsoft Office
- **Professional Skills:** Attention to detail, organizational skills, communication, adaptability, initiative, cross-functional collaboration

EXPERIENCE

CX by Design | Product/UX Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Analyzed user journeys and product workflows improving usability, navigation clarity, workflow efficiency, and customer satisfaction.
- Identified UX gaps, interface inconsistencies, and workflow opportunities improving product quality and implementation outcomes.
- Created user flows, screen maps, wireframes, and product specifications supporting development-ready implementation.
- Documented workflows, functional requirements, design decisions, and implementation guidance improving engineering collaboration.
- Collaborated with product managers, engineers, and stakeholders translating business ideas into scalable product solutions.
- Delivered organized documentation, UX audits, and product recommendations supporting successful feature implementation..

MyRentalSpot | UX Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Improved product workflows through UX analysis, usability testing, and iterative interface optimization increasing customer engagement.
- Designed user flows, navigation structures, wireframes, and interactive prototypes supporting intuitive digital experiences.
- Conducted stakeholder reviews, usability evaluations, and workflow analysis improving interface consistency and product quality.
- Delivered development-ready documentation aligned with business requirements and implementation priorities.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Dec 2025

- Facilitated collaborative workshops and ideation sessions supporting innovative web experiences, digital solutions, and customer engagement.
- Developed website concepts, rapid prototypes, and responsive interfaces translating business ideas into actionable outcomes.

Lighthouse Info System Pvt. Ltd | Associate UX Designer | Nagpur, India

June 2024 – Aug 2024

- Designed enterprise workflows, dashboards, and digital interfaces improving usability, communication quality, and operational efficiency.
- Conducted UX audits, workflow evaluations, stakeholder discussions, and interface reviews identifying optimization opportunities.
- Built reusable design systems, functional documentation, implementation specifications, and scalable interaction patterns supporting consistency.
- Created design standards, QA documentation, workflow specifications, and engineering handoff materials improving development quality.

Phoenixzone Technologies Pvt. Ltd | UX Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ user-centered product experiences improving workflow efficiency, usability, engagement, and interface consistency.
- Created user journey maps, screen flows, wireframes, interactive prototypes, and development-ready product documentation.
- Partnered directly with stakeholders translating business requirements into logical user experiences and scalable digital solutions.
- Leveraged AI-assisted workflows accelerating UX analysis, documentation, design iteration, and implementation efficiency.

EDUCATION

Pace University, New York | MS in Human Centered Design

G.H. Raison College of Engineering | Bachelor of Engineering in Computer Science

Sept 2024 – Dec 2025

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
