PROFESSIONAL SUMMARY

UX Designer with 4+ years of experience designing **end-to-end user experiences** for enterprise, retail, AI-powered, and SaaS platforms. Skilled in **UX strategy**, **interaction design**, **user research**, usability testing, **design thinking**, rapid prototyping, and translating customer insights into scalable digital products that improve usability, workflow efficiency, customer satisfaction, and business outcomes. Experienced collaborating with product managers, engineers, researchers, analysts, and cross-functional stakeholders to define product vision, prioritize user needs, and deliver intuitive customer experiences. Strong expertise in **Figma**, **Framer**, **Adobe Creative Suite**, design systems, information architecture, accessibility, agile product development, UX metrics, and data-informed design decisions.

SKILLS

- **User Experience Strategy:** UX strategy, experience vision, design thinking, customer-centered design, product strategy, experience planning
- **User Research & Insights:** User research, usability testing, customer interviews, evaluative research, research synthesis, actionable insights
- **Interaction Design:** Interaction design, user flows, task flows, journey mapping, information architecture, navigation design
- **UX Design & Prototyping:** Wireframing, rapid prototyping, interactive prototypes, high-fidelity mockups, concept validation, Figma
- **Design Systems:** Design systems, component libraries, scalable interfaces, UI consistency, pattern libraries, design documentation
- **Visual Design:** Visual design, typography, layout design, visual hierarchy, accessibility, responsive interfaces
- **Product Design:** End-to-end product design, feature design, product usability, product experiences, customer journeys, retail UX
- **Agile Product Development:** Agile methodology, sprint planning, product collaboration, iterative design, backlog refinement, continuous improvement
- **Cross-Functional Collaboration:** Product managers, engineers, UX researchers, analysts, stakeholder alignment, leadership communication
- **Data-Driven Design:** UX metrics, usability analytics, behavioral analysis, evidence-based design, OKRs, performance optimization
- **Research & Evaluation:** Heuristic evaluation, usability validation, accessibility reviews, design critiques, iterative improvements, user feedback
- **Problem Solving:** Design thinking, analytical thinking, innovation, strategic thinking, logical reasoning, customer advocacy
- **Project Leadership:** Product ownership, workshop facilitation, UX presentations, stakeholder workshops, mentoring, project execution
- **Tools & Technologies:** Figma, Framer, FigJam, Adobe Creative Suite, HTML, CSS, JavaScript, AI-assisted design workflows

EXPERIENCE

CX by Design | UX Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Designed end-to-end enterprise user experiences improving usability, customer satisfaction, workflow efficiency, and product adoption.
- Led UX strategy, journey mapping, usability testing, and design thinking workshops aligning customer needs with business objectives.
- Created wireframes, interactive prototypes, design systems, and high-fidelity interfaces accelerating agile product delivery.
- Synthesized user research, behavioral insights, and usability findings into actionable product improvements and UX strategies.
- Partnered with product managers, engineers, researchers, and analysts driving alignment across product vision and implementation.
- Delivered development-ready UX specifications, accessibility standards, and scalable design documentation improving implementation quality.

MyRentalSpot | UX/UI Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Designed intuitive customer experiences improving navigation, usability, workflow efficiency, and engagement across digital products.
- Built responsive user flows, wireframes, prototypes, and scalable interface solutions supporting product development.
- Conducted usability testing, heuristic evaluations, and iterative UX improvements based on customer feedback and analytics.
- Collaborated with cross-functional teams delivering customer-centered digital experiences aligned with business priorities.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Dec 2025

- Facilitated collaborative workshops and ideation sessions supporting innovative web experiences, digital solutions, and customer engagement.
- Developed website concepts, rapid prototypes, and responsive interfaces translating business ideas into actionable outcomes.

Lighthouse Info System Pvt. Ltd | Associate UX Designer | Nagpur, India

June 2024 – Aug 2024

- Designed enterprise dashboards, operational workflows, and customer experiences improving usability, accessibility, and operational efficiency.
- Conducted UX audits, user research, stakeholder workshops, and interface evaluations identifying high-impact product improvements.
- Built scalable design systems, reusable components, UX documentation, and implementation standards improving consistency across products.
- Partnered with engineering and product teams ensuring successful implementation of user-centered solutions across enterprise platforms.

Phoenixzone Technologies Pvt. Ltd | UX/UI Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ end-to-end digital experiences improving customer engagement, workflow efficiency, and product usability.
- Created user journeys, interaction models, prototypes, design systems, and customer-focused interfaces supporting agile product development.
- Translated research findings, stakeholder feedback, and business goals into intuitive product experiences and scalable UX solutions.
- Leveraged AI-assisted workflows accelerating ideation, rapid prototyping, research synthesis, and iterative product improvements.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.

- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
