PROFESSIONAL SUMMARY

UX Designer with 3+ years of experience designing **mobile applications**, **connected digital products**, and human-centered experiences across health-focused, data-rich, and technology-driven platforms. Skilled in end-to-end UX design, **wearable ecosystems**, **mobile product design**, **user research**, **usability testing**, wireframing, prototyping, and **translating complex behavioral and biometric data into intuitive user experiences improving engagement**, comprehension, and decision-making. Experienced collaborating with product teams, software engineers, stakeholders, and cross-functional partners to design scalable digital experiences from discovery through implementation. Strong expertise in **Figma**, health data visualization, interaction design, behavioral design, mobile UX, AI-assisted design workflows, **user journey mapping**, design systems, and scalable interaction patterns supporting **wellness**, **health tracking**, and **connected product experiences**.

SKILLS

- **Wearable & Connected Product Design:** Wearable ecosystems, connected devices, IoT experiences, companion applications, digital products
- **Mobile UX & Product Design:** Mobile applications, responsive systems, native experiences, customer-centered product design, interaction design
- **Health & Wellness Experiences:** Wellness applications, health tracking, digital health concepts, wellness ecosystems, health-focused UX
- **Biometric Data Visualization:** Data visualization, biometric interfaces, health metrics, information hierarchy, actionable insights
- **UX Research & Validation:** User interviews, usability testing, behavioral analysis, customer feedback, research synthesis
- **Wireframing & Prototyping:** User flows, wireframes, interactive prototypes, concept exploration, high-fidelity design
- **Figma & Design Systems:** Figma, component libraries, scalable design systems, design consistency, reusable patterns
- **Behavioral Design & Engagement:** Habit-forming experiences, behavioral psychology, engagement optimization, motivation design
- **User Journey Mapping:** Customer journeys, workflow mapping, interaction flows, experience architecture, service design
- **Human-Centered Design:** Human-centered design, accessibility, usability principles, customer-focused experiences, iterative design
- **Cross-Functional Collaboration:** Product teams, software engineers, stakeholders, workshop facilitation, collaborative development
- **Data-Driven Design Decisions:** Analytics interpretation, usability findings, behavioral insights, design optimization, decision support
- **Visual Design & Brand Consistency:** Premium experiences, luxury aesthetics, visual hierarchy, interface consistency, design quality
- **AI-Assisted Design Workflows:** AI-assisted workflows, rapid prototyping, design iteration, scalable optimization
- **Problem Solving & Innovation:** Strategic thinking, complex problem solving, scalable solutions, innovation-focused design

EXPERIENCE

CX by Design | UX Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Designed end-to-end mobile and digital product experiences improving usability, engagement, and customer understanding across data-rich platforms.
- Translated complex user needs into user journeys, wireframes, interactive prototypes, and high-fidelity Figma designs supporting product delivery.
- Conducted user research, usability testing, workflow evaluations, and behavioral analysis identifying opportunities for experience optimization.
- Designed intuitive dashboards and visualization experiences simplifying complex information into actionable user insights.
- Collaborated with engineers, product teams, and stakeholders aligning customer needs with scalable digital solutions.
- Contributed AI-assisted workflows, scalable design systems, and interaction patterns improving design consistency and implementation efficiency.

MyRentalSpot | UX/UI Product Design Intern | Orinda, CA

Aug 2025 – Sept 2025

- Developed responsive web and mobile experiences improving onboarding efficiency, usability, and interaction consistency.
- Built high-fidelity Figma prototypes, scalable interaction systems, and customer-focused workflows validating experiences before launch.
- Conducted usability evaluations, customer feedback analysis, and UX refinements improving accessibility and engagement quality.
- Collaborated with developers, product teams, and stakeholders delivering production-ready design systems and implementation workflows.
- Supported rapid iteration cycles, feature refinement, UX validation, and usability testing enhancing deployment quality.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and ideation sessions supporting innovative wellness-focused experiences and connected product concepts.
- Developed workflow analyses, interaction concepts, and communication assets translating user needs into functional digital experiences.
- Collaborated with cross-functional teams aligning customer journeys, usability goals, and product innovation initiatives.

Lighthouse Info System Pvt. Ltd | Associate UX Designer | Nagpur, India

June 2024 – Aug 2024

- Designed responsive dashboards, digital systems, and customer-centered experiences improving usability and communication quality.
- Conducted stakeholder discussions, usability evaluations, workflow analyses, and iterative design reviews identifying opportunities for UX optimization.
- Built reusable layouts, scalable design systems, wireframes, prototype-ready assets, and interaction workflows supporting consistency.
- Created UX documentation, design guidelines, QA systems, and operational standards reducing inconsistencies across implementations.
- Collaborated with engineering teams refining interaction systems, visualization experiences, and scalable software solutions.

Phoenixzone Technologies Pvt. Ltd | Junior UX Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ digital product experiences and scalable UX systems improving engagement, usability, and interaction performance.
- Created wireframes, user flows, prototypes, scalable UI components, and interaction systems supporting rapid product delivery.
- Partnered directly with developers and stakeholders translating customer requirements into scalable digital solutions.
- Leveraged AI-assisted workflows accelerating research synthesis, design iteration, validation processes, and implementation efficiency.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
