PROFESSIONAL SUMMARY

Product Designer with 4+ years of experience developing innovative product concepts, customer-centered design solutions, and functional prototypes across enterprise, manufacturing, and product development environments. Skilled in product development, concept generation, prototyping, technical documentation, visual communication, design validation, and translating customer requirements into production-ready design solutions. Experienced collaborating with engineering, quality, production, and cross-functional teams to optimize product functionality, manufacturability, and implementation quality. Strong expertise in design thinking, prototype development, technical specifications, product documentation, workflow optimization, and creative problem solving.

SKILLS

- **Product Development:** Product development, product concepts, prototype design, product innovation, concept development, design execution
- **Prototype Design:** Rapid prototyping, concept modeling, design validation, prototype testing, product refinement, implementation support
- **Technical Documentation:** Technical drawings, design documentation, specifications, work instructions, production documentation, revision control
- **Engineering Collaboration:** Engineering support, production collaboration, quality coordination, cross-functional teamwork, technical communication, stakeholder collaboration
- **Design Software:** Figma, Adobe Illustrator, Adobe Photoshop, Framer, Adobe Creative Suite, digital design
- **Visual Communication:** Technical visualization, concept presentation, layout design, visual storytelling, design communication, presentation materials
- **Product Research:** Customer requirements, project scoping, user research, requirement analysis, product planning, design strategy
- **Design Validation:** Design reviews, stakeholder feedback, iterative design, product evaluation, quality improvement, functional analysis
- **Manufacturing Support:** Production workflows, implementation support, manufacturing documentation, quality assurance, process improvement, production readiness
- **Creative Problem Solving:** Design thinking, analytical thinking, innovation, critical thinking, solution development, continuous improvement
- **Project Coordination:** Project management, deadline management, workflow coordination, multitasking, organization, project execution
- **Customer Collaboration:** Client communication, active listening, requirement gathering, design presentations, relationship management, expectation management
- **Documentation & Quality:** Product specifications, quality documentation, design standards, implementation guidance, compliance, consistency
- **Professional Skills:** Team collaboration, initiative, adaptability, persistence, attention to detail, decision making

EXPERIENCE

CX by Design | Product Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Developed customer-focused product concepts improving usability, functionality, implementation quality, and stakeholder satisfaction.
- Translated customer requirements, project objectives, and technical constraints into production-ready design concepts and specifications.
- Created functional prototypes, design documentation, visual concepts, and implementation assets supporting product development workflows.
- Applied design thinking, iterative validation, and stakeholder feedback improving product quality, functionality, and user experience.
- Collaborated with engineering, production, quality, and cross-functional teams optimizing product development and implementation outcomes.
- Delivered detailed specifications, product documentation, and design standards supporting successful prototype development and production.

MyRentalSpot | Product Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Developed innovative product concepts improving customer engagement, functionality, usability, and implementation quality.
- Built prototypes, concept presentations, design documentation, and visual assets supporting business and product objectives.
- Conducted design evaluations, stakeholder reviews, and concept refinements improving product quality and development outcomes.
- Collaborated with stakeholders delivering production-ready design solutions aligned with customer requirements.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Dec 2025

- Facilitated collaborative workshops and ideation sessions supporting innovative web experiences, digital solutions, and customer engagement.
- Developed website concepts, rapid prototypes, and responsive interfaces translating business ideas into actionable outcomes.

Lighthouse Info System Pvt. Ltd | Associate Product Designer | Nagpur, India

June 2024 – Aug 2024

- Designed product concepts, dashboards, and functional solutions improving communication quality, workflow efficiency, and customer satisfaction.
- Conducted stakeholder discussions, design evaluations, product analyses, and technical reviews identifying optimization opportunities.
- Built reusable design systems, implementation documentation, production assets, and specifications supporting scalability and consistency.
- Created product documentation, quality standards, implementation guides, and design specifications improving production readiness.

Phoenixzone Technologies Pvt. Ltd | Product Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ customer-focused product concepts and digital experiences improving usability, engagement, and implementation quality.
- Created prototypes, concept presentations, product documentation, design assets, and scalable systems supporting rapid project delivery.
- Partnered directly with stakeholders translating customer requirements into innovative product solutions and production-ready deliverables.
- Leveraged AI-assisted workflows accelerating concept exploration, prototype development, implementation efficiency, and project execution.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
