- **Project Management:** ClickUp, Google Workspace, Microsoft Office, deadline management, multitasking, workflow coordination
- **Creative Problem Solving:** Design thinking, usability improvements, visual communication, innovation, strategic thinking, user-centered design
- **Production & Quality:** Production-ready assets, quality assurance, implementation support, file optimization, documentation, testing

EXPERIENCE

- CX by Design | Web Designer Intern | New York, NY** **Sept 2025 – Dec 2025**
- Designed responsive websites, landing pages, and digital experiences improving engagement, lead generation, website performance, and usability.
 - Translated marketing goals, client requirements, and business objectives into production-ready websites and conversion-focused digital solutions.
 - Built WordPress-ready layouts, Figma components, responsive interfaces, and digital marketing assets supporting implementation quality.
 - Leveraged Claude Code, Cursor, ChatGPT, and AI-assisted workflows accelerating website development, prototyping, implementation, and delivery.
 - Collaborated with marketers, developers, content teams, and clients refining website functionality, branding, SEO priorities, and user experience.
 - Contributed scalable design systems, responsive workflows, and production-ready web assets supporting business growth objectives
- MyRentalSpot | Web Designer Intern | Orinda, CA** **Aug 2025 – Sept 2025**
- Developed responsive websites and landing pages improving customer engagement, conversion performance, navigation, and usability.
 - Built website mockups, marketing assets, interactive prototypes, and responsive layouts supporting branding and business objectives.
 - Conducted usability reviews, stakeholder feedback analysis, and website refinements improving conversion outcomes, clarity, and quality.
 - Collaborated with stakeholders delivering production-ready websites aligned with marketing strategies and client requirements.
- NYC Design Factory | Design and Innovation Volunteer | New York, NY** **Jan 2025 – Dec 2025**
- Facilitated collaborative workshops and ideation sessions supporting innovative web experiences, digital solutions, and customer engagement.
 - Developed website concepts, rapid prototypes, and responsive interfaces translating business ideas into actionable outcomes.
- Lighthouse Info System Pvt. Ltd | Associate Web Designer | Nagpur, India** **June 2024 – Aug 2024**
- Designed responsive websites, dashboards, and digital experiences improving usability, communication quality, and customer engagement.
 - Conducted stakeholder discussions, website evaluations, usability analyses, and design reviews identifying optimization opportunities.
 - Built reusable layouts, responsive design systems, HTML/CSS-ready assets, and production workflows supporting scalability and maintainability.
 - Created website documentation, design specifications, QA processes, and implementation standards improving quality across digital platforms.
- Phoenixzone Technologies Pvt. Ltd | Web Designer | Pune, India** **Jan 2024 – June 2024**
- Designed 20+ responsive websites and customer-focused digital experiences improving engagement, website performance, and conversions.
 - Created landing pages, responsive layouts, marketing assets, interactive interfaces, and production-ready web components supporting rapid delivery.
 - Partnered directly with stakeholders translating business requirements into scalable websites and impactful customer experiences.
 - Leveraged AI-assisted workflows accelerating website development, iteration cycles, implementation efficiency, and project execution quality.

EDUCATION

Pace University, New York | *MS in Human Centered Design*
G.H. Raisoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2024 – Dec 2025
Sept 2020 – June 2024

FEATURED PROJECTS

- Claudit – AI-Powered Design Auditing Platform | (Ongoing)**
- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
 - Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
 - Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.
- Author | (Ongoing)**
- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
 - Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
 - Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.
- BreathFree | Quit Smoking & Behavioral Health App**
- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
 - Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
