PROFESSIONAL SUMMARY

Senior Associate Product Designer with 2+ years of experience designing **performance-driven products**, travel gear concepts, and scalable product systems across consumer-facing and innovation-focused environments. Skilled in **product concept development**, **2D/3D CAD modeling**, **prototyping workflows**, visual storytelling, and translating form, function, and brand intent into commercially viable product solutions. Experienced collaborating with product managers, engineers, developers, vendors, and cross-functional stakeholders to improve product usability, material selection, construction refinement, and development efficiency across fast-paced design environments. Strong expertise in **Adobe Creative Suite**, **SolidWorks**, **Fusion 360**, prototyping methods, hands-on fabrication, design documentation, and market-focused product development supporting performance-oriented product experiences.

SKILLS

- **Product Design & Concept Development:** Product conceiving, performance-driven products, product refinement, visual storytelling, commercial product solutions
- **2D & 3D CAD Design:** SolidWorks, Fusion 360, 2D CAD, 3D CAD, scalable product systems, technical modeling
- **Prototyping & Fabrication:** Hands-on prototyping, model making, sketching, painting, fabrication methods, rapid concept validation
- **Materials & Construction:** Material selection, construction methods, design techniques, manufacturing awareness, product functionality
- **Adobe Creative Suite:** Adobe Photoshop, Illustrator, InDesign, Adobe Creative Suite, production-ready design workflows
- **Travel & Performance Gear Design:** Travel gear systems, performance product design, consumer-focused products, market trends
- **Cross-Functional Collaboration:** Product collaboration, engineering coordination, vendor communication, stakeholder alignment, development workflows
- **Product Development Workflows:** Product lifecycle management, PLM familiarity, milestone management, commercialization support
- **Visual Communication & Presentation:** Product presentations, storytelling systems, design documentation, stakeholder communication
- **Research & Market Analysis:** Market trend analysis, consumer insights, product research, design evaluations, usability refinement
- **Project & Timeline Management:** Product calendar management, deadline coordination, multi-project workflows, organized execution systems
- **Microsoft Office & Documentation:** Microsoft Word, Excel, PowerPoint, implementation documentation, technical specifications
- **AI-Assisted Design Workflows:** AI-assisted workflows, scalable design optimization, rapid iteration, workflow acceleration
- **Product Innovation & Problem Solving:** Product refinement, functional optimization, development systems, innovation-focused execution

EXPERIENCE

CX by Design | Product Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Designed performance-focused product concepts and visual systems improving usability, presentation quality, and workflow efficiency across projects.
- Created concept sketches, 2D/3D product layouts, prototype-ready assets, and visual storytelling systems translating functional requirements into customer-focused solutions.
- Developed scalable product presentations, material exploration concepts, and implementation documentation supporting commercialization workflows and milestone execution.
- Collaborated with engineers, developers, vendors, and stakeholders refining product functionality, construction methods, and design consistency across development cycles.
- Produced organized design systems, technical documentation, and milestone-driven workflows supporting rapid execution and deployment readiness.
- Contributed research-driven product concepts, prototyping workflows, and commercialization support improving product development.

MyRentalSpot | Product Design Intern | Orinda, CA

Aug 2025 – Sept 2025

- Built high-fidelity product mockups, SolidWorks concepts, and scalable presentation assets validating usability and workflow consistency before launch.
- Developed responsive design systems, prototype-ready layouts, and customer-centered interaction concepts supporting product refinement initiatives.
- Conducted product evaluations, usability reviews, and concept refinements improving functionality, presentation clarity, and implementation workflows.
- Collaborated with cross-functional teams delivering production-ready assets, technical specifications, and organized product systems supporting deployment readiness.
- Supported rapid iteration cycles, concept testing, and scalable development workflows improving product execution quality and timeline alignment.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and concept ideation sessions supporting innovative consumer product experiences and storytelling systems.
- Developed workflow analyses, product concepts, and scalable design recommendations translating user needs into functional product solutions.
- Collaborated with cross-functional teams aligning design goals, commercialization requirements, and customer-focused product improvements.

Lighthouse Info System Pvt. Ltd | Associate Product Designer | Nagpur, India

June 2024 – Aug 2024

- Designed responsive operational products, workflow systems, and scalable interface concepts improving usability and visual communication quality.
- Conducted stakeholder discussions and evaluations identifying opportunities for stronger functionality, material optimization, and workflow refinement.
- Built reusable layouts, prototype-ready assets, product systems, and commercialization-focused workflows supporting implementation consistency.
- Created product documentation, technical guidelines, and presentation systems reducing inconsistencies across development workflows and vendor coordination processes.
- Collaborated with engineering teams refining product workflows, functional systems, and scalable customer-focused design experiences.

Phoenixzone Technologies Pvt. Ltd | Junior Product Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ product concepts and scalable visual systems improving customer engagement, functionality, and presentation quality.
- Created sketches, product mockups, responsive assets, and prototype-ready systems supporting rapid concept development workflows.
- Partnered directly with developers and stakeholders translating functional requirements into scalable product refinement solutions.
- Leveraged AI-assisted workflows accelerating concept generation, prototyping refinement, and scalable product validation processes.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
