PROFESSIONAL SUMMARY

Product Designer with 3+ years of experience designing enterprise software, customer-facing applications, and workflow-driven digital experiences across complex business environments. Skilled in **UX research**, product discovery, **usability testing**, **journey mapping**, **service blueprinting**, wireframing, prototyping, and translating user insights into scalable product solutions improving usability, operational efficiency, and customer experience. Experienced collaborating with product managers, engineers, architects, QA teams, operations stakeholders, and cross-functional partners to drive end-to-end product design initiatives from discovery through implementation. Strong expertise in **Figma**, user interviews, design thinking, Agile methodologies, workshop facilitation, UX documentation, AI-assisted design workflows, and **enterprise-scale product experiences** supporting digital transformation initiatives.

SKILLS

- **UX Research & Discovery:** User interviews, contextual inquiries, observational research, usability testing, research synthesis, insight generation
- **Product Design & Strategy:** Product design, UX design, product discovery, design thinking, feature ownership, customer-centered solutions
- **Personas & Journey Mapping:** Personas, journey maps, experience mapping, customer journeys, workflow analysis, service ecosystems
- **Service Blueprinting & Workflows:** Service blueprints, operational workflows, process mapping, experience architecture, workflow optimization
- **User Flows & Information Architecture:** User flows, interaction models, navigation systems, information architecture, task completion flows
- **Wireframing & Prototyping:** Wireframes, interactive prototypes, concept exploration, high-fidelity designs, experience validation
- **Figma & Design Systems:** Figma, component libraries, design systems, reusable patterns, scalable design foundations, consistency
- **Usability Testing & Validation:** Validation studies, usability evaluations, user feedback analysis, iterative improvements, design optimization
- **Enterprise Software Design:** Enterprise applications, workflow systems, operational platforms, business process improvement, digital transformation
- **Retail & POS Experiences:** Retail operations, point-of-sale systems, customer experiences, associate workflows, transaction journeys
- **Agile & Scrum Delivery:** Sprint planning, backlog refinement, sprint reviews, retrospectives, Agile collaboration, product execution
- **Workshop Facilitation & Leadership:** Design workshops, discovery sessions, stakeholder alignment, decision facilitation, collaborative problem solving
- **Cross-Functional Collaboration:** Product managers, engineers, architects, QA teams, operations stakeholders, implementation support
- **UX Documentation & Handoff:** Design documentation, implementation guidance, design specifications, product delivery, workflow standards
- **AI-Assisted Design Workflows:** AI-enabled tools, rapid prototyping, workflow optimization, iterative design execution, research acceleration

EXPERIENCE

CX by Design | *Product Designer Intern* | New York, NY

Sept 2025 – Dec 2025

- Led end-to-end product design initiatives for workflow-driven platforms improving usability, operational efficiency, and customer experiences.
- Conducted user interviews, usability testing, contextual research, and workflow evaluations translating findings into actionable product improvements.
- Created personas, journey maps, service blueprints, user flows, wireframes, and high-fidelity Figma prototypes supporting product delivery.
- Facilitated design workshops and stakeholder discovery sessions aligning business goals, customer needs, and product strategy.
- Collaborated with product managers, engineers, architects, and stakeholders ensuring successful implementation across Agile development cycles.
- Contributed AI-assisted workflows, scalable design systems, UX documentation, and validation processes improving product quality and consistency.

MyRentalSpot | *Product Designer Intern* | Orinda, CA

Aug 2025 – Sept 2025

- Developed customer-facing digital experiences improving onboarding efficiency, workflow consistency, and interaction quality.
- Built high-fidelity Figma prototypes, user flows, wireframes, and scalable interaction systems validating solutions before launch.
- Conducted usability evaluations, customer feedback analysis, and UX refinements improving accessibility and engagement outcomes.
- Collaborated with developers, product teams, and stakeholders delivering implementation-ready designs and workflow improvements.
- Supported rapid iteration cycles, design validation, feature refinement, and Agile delivery activities enhancing deployment quality.

NYC Design Factory | *Design and Innovation Volunteer* | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and ideation sessions supporting innovative customer experiences and scalable service solutions.
- Developed workflow analyses, journey maps, and communication assets translating user needs into actionable design opportunities.
- Collaborated with cross-functional teams aligning customer journeys, usability goals, and innovation initiatives.

Lighthouse Info System Pvt. Ltd | *Associate Product Designer* | Nagpur, India

June 2024 – Aug 2024

- Designed enterprise dashboards, workflow systems, and customer-centered digital experiences improving usability and communication quality.
- Conducted stakeholder interviews, usability evaluations, workflow analyses, and design reviews identifying opportunities for optimization.
- Created personas, journey maps, service blueprints, wireframes, and prototype-ready assets supporting enterprise product initiatives.
- Developed UX documentation, implementation guidance, QA validation processes, and operational standards reducing workflow inefficiencies.
- Collaborated with engineering teams refining enterprise workflows, interaction systems, and scalable software experiences.

Phoenixzone Technologies Pvt. Ltd | *Junior Product Designer* | Pune, India

Jan 2024 – June 2024

- Designed 20+ enterprise and customer-facing digital experiences improving engagement, usability, and workflow performance.
- Created wireframes, prototypes, user flows, journey maps, and scalable UI systems supporting rapid product delivery.
- Partnered directly with stakeholders translating research findings into scalable product recommendations and workflow improvements.
- Leveraged AI-assisted workflows accelerating research synthesis, design iteration, validation activities, and implementation efficiency.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Raison College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
