PROFESSIONAL SUMMARY

UX Designer with 4+ years of experience designing **complex software products**, operator-facing systems, enterprise platforms, and mission-critical digital experiences across web, mobile, and dashboard environments. Skilled in **end-to-end product design**, **interaction design**, **systems thinking**, **user research**, **contextual inquiry**, usability testing, wireframing, prototyping, and translating technical complexity into intuitive user experiences improving operational efficiency, situational awareness, and decision-making. Experienced collaborating with software engineers, technical stakeholders, and cross-functional teams to deliver production-ready solutions across data-dense, workflow-driven platforms. Strong expertise in Figma, **design systems**, human-centered design, dashboard design, **human-machine interfaces**, telemetry visualization, AI-assisted workflows, **design tokens**, and scalable product experiences supporting high-performance operational environments.

SKILLS

- **Mission-Critical UX Systems:** Operator interfaces, mission-critical workflows, operational systems, safety-critical experiences, decision support
- **End-to-End Product Design:** Product discovery, problem framing, interaction design, visual design, prototyping, production delivery
- **Human-Machine Interfaces:** HMI design, embedded interfaces, onboard displays, control systems, operator experiences, vessel interfaces
- **Enterprise & Operational Dashboards:** Command interfaces, enterprise dashboards, fleet monitoring, workflow management, operational visibility
- **Data Visualization & Telemetry:** Sensor data, telemetry systems, charts, maps, real-time monitoring, fleet views, video feeds
- **User Research & Contextual Inquiry:** User interviews, contextual inquiry, field research, usability testing, research synthesis
- **Human Factors & Usability:** Situational awareness, alerting hierarchies, workload management, error recovery, error tolerance
- **Wireframing & Prototyping:** User flows, wireframes, interactive prototypes, high-fidelity mockups, concept validation
- **Figma & Design Systems:** Figma, component libraries, design tokens, reusable patterns, scalable design systems
- **Interaction Design & Systems Thinking:** Systems thinking, interaction patterns, workflow optimization, information architecture
- **Web & Mobile Applications:** Responsive applications, mobile products, enterprise platforms, cross-platform experiences
- **Technical Collaboration:** Software engineers, hardware engineers, systems engineers, implementation support, technical constraints
- **Data-Dense Interface Design:** Monitoring dashboards, operational controls, sensor visualizations, analytical interfaces
- **Version Control & Modern Stacks:** Git, GitHub, React awareness, TypeScript awareness, production-ready workflows
- **Cross-Functional Leadership:** Stakeholder alignment, executive presentations, design reviews, communication, collaboration

EXPERIENCE

CX by Design | UX Designer Intern | New York, NY Sept 2025 – Dec 2025

- Owned end-to-end UX design initiatives across dashboard platforms and workflow-driven applications improving operational visibility and decision support.
- Translated complex technical requirements into intuitive user journeys, interaction flows, wireframes, prototypes, and production-ready interfaces.
- Conducted user interviews, contextual research, workflow evaluations, and usability testing identifying opportunities to reduce friction and improve efficiency.
- Designed data-dense dashboards, monitoring interfaces, and scalable interaction systems supporting real-time decision making.
- Collaborated closely with software engineers and stakeholders ensuring seamless implementation across technical environments.
- Built reusable design systems, component libraries, and scalable interface foundations supporting long-term platform consistency.

MyRentalSpot | UX Designer Intern | Orinda, CA Aug 2025 – Sept 2025

- Designed responsive web and mobile experiences improving onboarding efficiency, workflow clarity, and interaction consistency.
- Created high-fidelity Figma prototypes, wireframes, and scalable interaction patterns validating solutions before development.
- Conducted usability testing, customer feedback analysis, and iterative refinements improving engagement and accessibility outcomes.
- Partnered with developers and stakeholders delivering production-ready interfaces aligned with business objectives.
- Supported rapid design iterations, feature validation, and UX improvements enhancing deployment quality.

NYC Design Factory | Design and Innovation Volunteer | New York, NY Jan 2025 – Present

- Facilitated collaborative workshops and design sessions supporting innovative digital experiences and operational workflows.
- Developed workflow analyses, interaction concepts, and experience frameworks translating user needs into actionable solutions.
- Collaborated with multidisciplinary teams aligning customer journeys, usability goals, and product innovation initiatives.

Lighthouse Info System Pvt. Ltd | Associate UX Designer | Nagpur, India June 2024 – Aug 2024

- Designed operational dashboards, workflow systems, and enterprise experiences improving usability and communication effectiveness.
- Conducted stakeholder interviews, usability evaluations, workflow analyses, and design reviews identifying UX optimization opportunities.
- Built reusable layouts, design systems, wireframes, telemetry-inspired visualizations, and prototype-ready assets supporting consistency.
- Created UX documentation, design standards, QA systems, and implementation guidelines reducing operational inefficiencies.
- Collaborated with engineering teams refining interaction models, workflow systems, and scalable software experiences.

Phoenixzone Technologies Pvt. Ltd | Junior UX Designer | Pune, India Jan 2024 – June 2024

- Designed 20+ digital product experiences and workflow systems improving usability, engagement, and operational performance.
- Created wireframes, prototypes, scalable UI components, dashboards, and interaction systems supporting rapid deployment cycles.
- Partnered directly with developers and stakeholders translating complex requirements into intuitive software experiences.
- Leveraged AI-assisted workflows accelerating research synthesis, design validation, iteration speed, and implementation efficiency.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
