PROFESSIONAL SUMMARY

Front End Software Engineer with 3+ years of experience developing **responsive SPAs, scalable web applications, and UX-focused digital systems** across frontend and full stack environments. Skilled in **React, JavaScript, HTML, CSS, Node.js, Python, REST APIs**, and translating **UI/UX** concepts into high-performance, customer-focused web experiences improving usability, accessibility, and application responsiveness. Experienced collaborating with UX designers, engineers, product teams, and stakeholders to optimize **frontend performance**, improve deployment workflows, and build scalable **cloud-ready applications** within fast-paced technical environments. Strong expertise in React, Vue, Node.js, AWS, API development, frontend debugging, **Chrome DevTools**, responsive systems, accessibility standards, Web Workers, and AI-assisted development workflows supporting scalable modern web applications.

SKILLS

- **Frontend Development:** React, Vue, Svelte familiarity, WebComponents, JavaScript, TypeScript, HTML, CSS, responsive UI systems
- **SPA & PWA Development:** Single-page applications, progressive web apps, responsive architectures, scalable frontend systems
- **Backend Development & APIs:** Node.js, REST APIs, backend services, API integration, scalable server systems
- **Programming Languages:** JavaScript, Python, Rust fundamentals, SQL, PHP fundamentals, TypeScript
- **Frontend Performance Optimization:** Chrome DevTools, debugging workflows, frontend optimization, responsive testing, application performance
- **UI/UX Design & Implementation:** UI/UX principles, responsive interfaces, accessibility standards, interaction systems, usability optimization
- **Cloud Platforms & Deployment:** AWS, Azure familiarity, GCP familiarity, cloud deployment systems, scalable infrastructure
- **Database Technologies:** PostgreSQL, SQLite, Redis familiarity, database integration, scalable backend workflows
- **Web Technologies & APIs:** Web Workers, browser APIs, asynchronous workflows, scalable event systems, notification systems
- **Video & Streaming Technologies:** Video streaming familiarity, encoding familiarity, browser rendering systems, media optimization
- **Gamepad & WASM Familiarity:** Web Gamepad API familiarity, WASM module familiarity, browser interaction systems
- **Accessibility & QA Standards:** Accessibility standards, frontend QA, usability validation, responsive implementation systems
- **Design & Collaboration Tools:** Figma, GitHub, version control, collaborative workflows, scalable design systems
- **Cross-Functional Collaboration:** UX collaboration, engineering coordination, stakeholder communication, agile workflows
- **AI-Assisted Development Workflows:** AI-assisted coding, scalable optimization, rapid debugging, workflow acceleration

EXPERIENCE

CX by Design | *Front End Software Engineer* | New York, NY

Sept 2025 – Dec 2025

- Developed responsive SPAs and scalable frontend systems improving usability, accessibility, and customer interaction quality across digital platforms.
- Built high-performance React interfaces using HTML, CSS, JavaScript, Node.js, and responsive systems supporting polished applications.
- Translated Figma wireframes, UX concepts, and scalable design systems into production-ready frontend experiences improving deployment speed and implementation consistency.
- Collaborated with UX designers, engineers, clients, and stakeholders incorporating feedback into scalable UI/UX systems aligned with expectations.
- Optimized frontend performance using Chrome DevTools, debugging workflows, responsive testing, and accessibility standards improving reliability.
- Built scalable API integrations, reusable frontend components, and AI-assisted workflows supporting efficient engineering operations and rapid deployment cycles.

MyRentalSpot | *Full Stack Development Intern* | Orinda, CA

Aug 2025 – Sept 2025

- Developed responsive web applications, scalable APIs, and frontend systems improving usability and customer-focused digital experiences.
- Built React-based interfaces, responsive layouts, backend integrations, and SPA workflows validating implementation consistency before deployment.
- Supported Node.js, JavaScript, HTML, CSS, Python, and API refinements improving responsiveness, functionality, and frontend performance.
- Collaborated with developers, product teams, and stakeholders delivering production-ready applications, scalable workflows, and technical documentation.
- Supported rapid iteration cycles, debugging workflows, QA testing, frontend optimization, and deployment systems improving application stability.

NYC Design Factory | *Design and Innovation Volunteer* | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and technical ideation sessions supporting customer-focused digital systems and scalable web experiences.
- Developed workflow analyses, responsive interface concepts, and communication assets translating customer needs into functional software solutions.
- Collaborated with cross-functional teams aligning product goals, interaction systems, and customer-focused usability initiatives.

Lighthouse Info System Pvt. Ltd | *Associate Front End Developer* | Nagpur, India

June 2024 – Aug 2024

- Designed responsive dashboards, scalable frontend systems, and UX-focused web experiences improving usability, accessibility, and interaction quality.
- Conducted stakeholder discussions and application evaluations identifying opportunities for workflow optimization, stronger functionality, and improved responsiveness.
- Built reusable UI systems, API-integrated interfaces, scalable frontend workflows, and responsive architectures supporting implementation consistency across development cycles.
- Created technical documentation, deployment guidelines, and QA systems reducing inconsistencies across engineering workflows and operations.
- Collaborated with engineering teams refining customer-focused interfaces, scalable application systems, and responsive frontend experiences.

Phoenixzone Technologies Pvt. Ltd | *Junior Front End Developer* | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive web applications and scalable frontend systems improving customer engagement, functionality, and interface performance.
- Created React interfaces, responsive layouts, scalable components, frontend assets, and browser interaction systems supporting deployment workflows.
- Partnered directly with developers and stakeholders translating UX requirements into scalable frontend solutions and responsive interaction systems.
- Leveraged AI-assisted workflows accelerating debugging, frontend optimization, scalable validation processes, and deployment efficiency.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
