PROFESSIONAL SUMMARY

Product Designer with 2+ years of experience designing responsive web, mobile, and internal product experiences for consumer-facing platforms and operational tools. Skilled in **end-to-end UX/UI design**, **customer journey optimization**, onboarding flows, **rewards ecosystems**, **CRM/admin workflows**, and **scalable design systems**. Expert in **Figma**, **wireframing**, prototyping, interaction design, usability testing, QA validation, and translating ambiguous business requirements into conversion-focused product solutions. Proven track record improving user engagement, reducing friction, optimizing task completion, and collaborating cross-functionally with product, engineering, marketing, customer support, and operations teams to deliver production-ready experiences.

SKILLS

- **Product Design & UX:** Product design, UX/UI design, responsive web design, mobile app design, onboarding flows, customer journey mapping
- **Membership & Rewards Platforms:** Rewards ecosystems, loyalty experiences, restaurant discovery UX, account management, conversion-focused flows
- **Wireframing & Prototyping:** Wireframing, interactive prototyping, user flows, interaction design, information architecture, workflow mapping
- **Figma & Design Systems:** Figma, components, variants, auto layout, scalable design systems, production-ready UI specifications
- **Research & User Testing:** Usability testing, behavioral insights, customer feedback, A/B testing, friction reduction, retention optimization
- **Internal Tools & CRM Workflows:** CRM systems, admin dashboards, operational workflows, workflow optimization, edge cases, failure states
- **Visual & Responsive Design:** Typography, hierarchy, responsive layouts, interaction states, scalable UI systems, accessibility standards
- **Cross-Functional Collaboration:** Product roadmap planning, engineering handoff, stakeholder communication, agile workflows, collaboration
- **QA & Product Documentation:** QA validation, implementation reviews, annotated specifications, product documentation, responsive guidelines
- **AI Tools & Workflow Optimization:** ChatGPT, Claude, Cursor, AI workflows, rapid ideation, workflow optimization, AI-powered prototyping
- **Product Strategy & Optimization:** Feature prioritization, business requirements, usability improvements, customer retention, task optimization
- **Analytics & Product Insights:** Behavioral analytics, qualitative research, quantitative insights, usability metrics, conversion-focused decisions

EXPERIENCE

CX by Design | Product Design Intern | New York, NY

Sept 2025 – Dec 2025

- Designed web and mobile product experiences translating business requirements into scalable customer workflows and production-ready interfaces.
- Created onboarding journeys, account management flows, and rewards interactions improving usability, engagement, and task completion.
- Built scalable Figma design systems, reusable components, and responsive interaction patterns improving consistency across products.
- Designed wireframes, prototypes, edge-case states, and interaction flows supporting product experiences and operational workflows.
- Partnered with product managers, engineers, marketing, and operations teams aligning UX decisions with roadmap priorities and business goals.
- Conducted usability testing and customer research identifying friction points and optimizing conversion, retention, and workflow efficiency.

MyRentalSpot | Product Design Intern | Orinda, CA

Aug 2025 – Sept 2025

- Redesigned responsive onboarding experiences, account workflows, and product interactions improving usability across digital platforms.
- Built high-fidelity Figma and Framer prototypes validating interaction states, responsive layouts, and workflow scalability before development.
- Conducted usability testing and synthesized qualitative findings into actionable UX improvements reducing friction across multi-step user flows.
- Collaborated with engineering teams delivering UI specifications, responsive layouts, and QA documentation improving launch readiness.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Present

- Facilitated workshops, journey mapping sessions, and rapid ideation exercises supporting customer-centered product experiences and workflows.
- Developed wireframes, prototypes, and UX concepts translating business challenges into intuitive product flows and scalable interaction systems.

Lighthouse Info System Pvt. Ltd | Associate Product Designer | Nagpur, India

June 2024 – Aug 2024

- Designed responsive dashboards, internal operational tools, and scalable workflow interfaces improving usability, hierarchy, and operational efficiency.
- Conducted stakeholder interviews and workflow sessions identifying edge cases, business requirements, and friction informing UX solutions.
- Built high-fidelity interfaces, reusable components, and responsive layouts supporting cross-functional product consistency and workflow optimization.
- Created design documentation, QA checklists, interaction patterns, and implementation guidelines reducing inconsistencies and engineering ambiguity.

Phoenixzone Technologies Pvt. Ltd | Junior Product Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive web and mobile product flows improving navigation clarity, customer efficiency, and usability across digital platforms.
- Created wireframes, prototypes, high-fidelity interfaces, and interaction states focused on conversion optimization, visual consistency, and UX systems.
- Partnered directly with engineers during sprint cycles refining implementation feasibility, responsive behaviors, and workflow interactions.
- Defined motion behaviors, interaction feedback systems, and scalable design patterns improving customer engagement and usability across workflows.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
