PROFESSIONAL SUMMARY

Junior UX Designer with 2+ years of experience designing **enterprise web applications, operational dashboards**, and data-dense product experiences across responsive platforms. Skilled in **wireframing, interaction design, usability testing, workflow mapping**, and translating complex operational workflows into scalable user-centered interfaces. Experienced collaborating with engineers, product owners, and cross-functional teams during Agile sprints to improve usability, workflow efficiency, accessibility, and interface consistency across enterprise SaaS environments. Strong expertise in Figma, design systems, **AI-assisted prototyping**, GitHub Copilot, **UX research**, operational UI, accessibility standards, and developer handoff documentation supporting scalable enterprise applications.

SKILLS

- **Wireframing & Prototyping:** Wireframes, mockups, interactive prototypes, interaction models, workflow mapping, interface design, user flows
- **Enterprise & Dashboard UX:** Operational dashboards, enterprise SaaS, analytics interfaces, operational UI, data visualization, reporting
- **Figma & Design Systems:** Figma, auto layout, variables, components, design systems, design tokens, UI specifications, governance
- **AI-Assisted Prototyping:** GitHub Copilot, Claude, Bolt, v0, AI-assisted workflows, rapid prototyping, browser-based prototyping
- **Front-End Collaboration:** HTML, CSS, JavaScript, Angular, PrimeNG, implementation support, responsive behaviors, developer collaboration
- **Research & Testing:** Research synthesis, usability testing, qualitative insights, workflow analysis, iterative UX improvements, prototype validation
- **Agile & Engineering Collaboration:** Agile workflows, sprint collaboration, engineering handoff, implementation support, design reviews
- **Accessibility & UX Compliance:** WCAG 2.1 AA standards, accessibility principles, responsive behaviors, usability consistency, accessibility validation
- **Workflow & Interaction Design:** Information architecture, interaction design, navigation clarity, edge cases, workflow efficiency, interaction patterns
- **Documentation & Handoff:** UX documentation, annotated specifications, interface mappings, developer handoff, workflow artifacts, implementation notes
- **Visual Design & Communication:** Typography, spacing, hierarchy, visual consistency, design rationale, stakeholder presentations, communication
- **Design Systems & Components:** Component libraries, scalable UI systems, design governance, interface consistency, reusable interaction patterns
- **Operational UX Workflows:** Complex workflows, operational interfaces, task optimization, workflow scalability, enterprise interaction systems
- **Product Collaboration & Delivery:** Cross-functional collaboration, product alignment, sprint execution, implementation readiness, UX delivery

EXPERIENCE

- CX by Design | UX Design Intern | New York, NY** **Sept 2025 – Dec 2025**
- Designed enterprise web applications and operational product experiences translating complex workflows into scalable user-centered interfaces.
 - Built wireframes, interaction flows, and high-fidelity prototypes improving usability, workflow efficiency, and navigation clarity across platforms.
 - Created reusable Figma components, design tokens, scalable design systems, and UI specifications supporting rapid implementation consistency.
 - Collaborated with engineers, product owners, and cross-functional teams during Agile sprints refining responsive behaviors and interaction logic.
 - Conducted usability testing, workflow analysis, affinity mapping, and UX research synthesis identifying friction points across operational experiences.
 - Produced annotated specifications, developer handoff documentation, and implementation-ready UI assets supporting scalable enterprise delivery.
- MyRentalSpot | UX Design Intern | Orinda, CA** **Aug 2025 – Sept 2025**
- Redesigned onboarding workflows and enterprise product experiences improving usability across responsive digital platforms.
 - Built high-fidelity Figma and Framer prototypes validating interaction states, workflow scalability, and operational interface behaviors.
 - Conducted usability testing and synthesized qualitative findings into actionable UX improvements reducing friction across multi-step workflows.
 - Collaborated with engineering teams delivering UI specifications, responsive layouts, accessibility reviews, and QA documentation improving implementation readiness.
 - Contributed reusable Figma components and scalable interaction patterns supporting design consistency across responsive enterprise workflows.
- NYC Design Factory | Design and Innovation Volunteer | New York, NY** **Jan 2025 – Present**
- Facilitated workshops, journey mapping sessions, and rapid ideation exercises supporting customer-centered product experiences and workflows.
 - Developed wireframes, prototypes, interaction models, and UX concepts translating business challenges into scalable workflow solutions.
- Lighthouse Info System Pvt. Ltd | Associate UX Designer | Nagpur, India** **June 2024 – Aug 2024**
- Designed responsive dashboards, operational interfaces, and enterprise workflow experiences improving usability, hierarchy, and data visualization clarity.
 - Conducted stakeholder interviews and workflow sessions identifying edge cases, operational requirements, and friction informing UX solutions.
 - Built high-fidelity interfaces, reusable components, scalable layouts, and design system patterns supporting enterprise workflow consistency.
 - Created UX documentation, QA checklists, interaction patterns, and implementation guidelines reducing inconsistencies and engineering ambiguity.
- Phoenixzone Technologies Pvt. Ltd | Junior UX Designer | Pune, India** **Jan 2024 – June 2024**
- Designed 20+ responsive web and mobile product flows improving navigation clarity, workflow efficiency, and usability across enterprise platforms.
 - Created wireframes, prototypes, operational interfaces, and interaction states focused on scalable UX systems and usability optimization.
 - Partnered directly with engineers during sprint cycles refining implementation feasibility, responsive behaviors, and workflow interactions.
 - Leveraged GitHub Copilot, AI-assisted prototyping, HTML/CSS/JS workflows, and browser-based prototypes accelerating rapid UX iteration.

EDUCATION

Pace University, New York | MS in Human Centered Design
G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2024 – Dec 2025
Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
 - Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
 - User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
 - Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
- Copyright:** Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
