PROFESSIONAL SUMMARY

Senior UX Designer with 4+ years of experience designing intuitive, user-centered product experiences across enterprise, AI-powered, SaaS, and operational platforms. Skilled in **UX research**, interaction design, **complex workflow optimization**, **design systems**, user flows, high-fidelity prototyping, and translating operational requirements into scalable product solutions that improve usability, efficiency, and user adoption. Experienced collaborating with product managers, engineers, researchers, and cross-functional teams to deliver end-to-end web and mobile experiences, design systems, and development-ready specifications. Strong expertise in Figma, Framer, **AI-assisted design workflows**, **UX strategy**, systems thinking, design documentation, usability testing, research synthesis, and product innovation.

SKILLS

- **UX Strategy & Product Design:** User experience, product design, UX strategy, user-centered design, product thinking, systems thinking
- **UX Research & Validation:** User research, usability testing, research synthesis, stakeholder interviews, behavioral analysis, data-driven design
- **Interaction Design:** Interaction design, user flows, journey mapping, task flows, workflow optimization, information architecture
- **Design Systems:** Design systems, component libraries, design tokens, scalable interfaces, style guides, design documentation
- **Visual Design:** Visual design, interface design, typography, color theory, layout design, high-fidelity mockups
- **Prototyping & Wireframing:** Wireframing, rapid prototyping, interactive prototypes, concept validation, micro-interactions, prototype testing
- **Figma & Design Tools:** Figma, Framer, FigJam, Adobe Photoshop, Adobe Illustrator, Adobe Creative Suite
- **Web & Mobile UX:** Responsive design, mobile applications, web portals, enterprise software, SaaS platforms, operational tools
- **Enterprise UX:** Dashboard design, workflow automation, operational interfaces, multi-step workflows, data-rich interfaces, platform consistency
- **AI-Assisted Design:** ChatGPT, Cursor, AI-assisted workflows, rapid ideation, concept iteration, UX acceleration
- **Cross-Functional Collaboration:** Product managers, engineering collaboration, stakeholder communication, leadership alignment, design presentations, implementation support
- **Development Handoff:** Design specifications, developer handoff, production assets, implementation documentation, QA validation, design reviews
- **Problem Solving & Optimization:** Critical thinking, workflow analysis, UX optimization, accessibility, continuous improvement, user advocacy
- **Project Leadership:** Project ownership, agile collaboration, deadline management, prioritization, strategic planning, execution excellence

EXPERIENCE

CX by Design | UX Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Designed end-to-end product experiences improving usability, operational efficiency, feature adoption, and customer satisfaction.
- Completed UX audits identifying usability gaps, workflow bottlenecks, interface inconsistencies, and product improvement opportunities.
- Built scalable design systems, reusable component libraries, design documentation, and implementation standards accelerating engineering delivery.
- Created user flows, interaction models, high-fidelity prototypes, and responsive interfaces supporting complex operational workflows.
- Applied UX research, usability testing, stakeholder feedback, and research synthesis improving product decisions and implementation quality.
- Collaborated with product managers, engineers, and leadership delivering production-ready specifications supporting successful feature launches.

MyRentalSpot | UX Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Improved operational workflows through user-centered interface design, usability optimization, and iterative product improvements.
- Built responsive user flows, wireframes, interactive prototypes, and scalable interface components supporting product development.
- Conducted stakeholder interviews, usability evaluations, and workflow analysis improving interface clarity and user satisfaction.
- Delivered implementation-ready design assets aligned with engineering requirements, product goals, and customer expectations.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Dec 2025

- Facilitated collaborative workshops and ideation sessions supporting innovative web experiences, digital solutions, and customer engagement.
- Developed website concepts, rapid prototypes, and responsive interfaces translating business ideas into actionable outcomes.

Lighthouse Info System Pvt. Ltd | Associate UX Designer | Nagpur, India

June 2024 – Aug 2024

- Designed enterprise dashboards, operational interfaces, and workflow solutions improving usability, efficiency, and customer engagement.
- Conducted UX audits, stakeholder discussions, workflow analysis, and usability evaluations identifying product optimization opportunities.
- Built reusable design systems, UI components, implementation documentation, and scalable interaction patterns improving consistency.
- Created detailed specifications, design documentation, QA standards, and engineering handoff assets improving development quality.

Phoenixzone Technologies Pvt. Ltd | UX Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ enterprise product experiences improving workflow efficiency, usability, user engagement, and operational performance.
- Created user flows, wireframes, interactive prototypes, visual interfaces, and scalable design systems supporting rapid feature delivery.
- Partnered with product managers, engineers, and stakeholders translating operational requirements into intuitive digital experiences.
- Leveraged AI-assisted workflows accelerating research synthesis, rapid prototyping, concept iteration, and implementation efficiency.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
