PROFESSIONAL SUMMARY

User Interface Designer with 2+ years of experience designing **operational dashboards**, graphical control interfaces, and responsive visualization systems across enterprise and workflow-driven environments. Skilled in **graphical user interface design**, **real-time system visualization**, workflow mapping, and translating technical system data into intuitive user-centered operational experiences. Experienced collaborating with engineering teams, stakeholders, and cross-functional teams to improve system visibility, usability, alarm workflows, and operational efficiency across fast-paced technical environments. Strong expertise in **Adobe Photoshop**, **Microsoft Visio**, interface layouts, building automation visualization, UI documentation, **workflow optimization**, and scalable graphical systems supporting **HVAC and BMS-style** operational platforms.

SKILLS

- **Graphical User Interface Design:** GUI screens, operational dashboards, real-time visualization, interactive control systems, user-centered interfaces
- **HVAC & Building Automation:** HVAC systems, building automation systems, BMS workflows, automation visualization, system monitoring
- **HVAC Interface Platforms:** Tridium Niagara familiarity, Distech familiarity, Facility Explorer familiarity, operational interface systems
- **Adobe & Visualization Tools:** Adobe Photoshop, Microsoft Visio, interface graphics, scalable visual systems, production-ready layouts
- **Operational Workflow Design:** Workflow mapping, interface hierarchy, navigation clarity, operational usability, responsive visualization systems
- **System Data Visualization:** Real-time system data, equipment visualization, monitoring dashboards, system visibility, graphical displays
- **Alarm & Trend Configuration:** Alarm configuration support, data trending workflows, point naming systems, operational coordination
- **Cross-Functional Collaboration:** Engineering collaboration, stakeholder communication, implementation alignment, workflow coordination
- **Technical Documentation:** UI documentation, implementation workflows, graphical standards, system specifications, interface guidelines
- **User Experience & Interaction Design:** Interaction behaviors, interface consistency, customer-focused systems, workflow optimization
- **Project Coordination & Execution:** Multi-project coordination, operational support, deployment readiness, scalable implementation workflows
- **Computer & Technical Skills:** Computer proficiency, technical systems, automation support, interface setup, system operations
- **Problem Solving & Analysis:** Workflow analysis, operational troubleshooting, usability refinement, scalable interface optimization
- **AI-Assisted Workflows:** AI-assisted workflows, scalable design execution, workflow acceleration, rapid visualization refinement

EXPERIENCE

CX by Design | User Interface Design Intern | New York, NY

Sept 2025 – Dec 2025

- Designed operational dashboards and graphical interface systems improving usability, workflow clarity, and system visibility across projects.
- Created responsive GUI layouts, visualization screens, and scalable interface assets translating complex operational data into intuitive experiences.
- Developed interface hierarchies, workflow structures, and production-ready visual systems supporting implementation consistency and usability refinement.
- Collaborated with engineering teams and stakeholders refining operational workflows, system behaviors, and graphical display functionality.
- Produced organized interface documentation, graphical specifications, and implementation assets improving deployment readiness and workflow alignment.
- Supported scalable visualization systems and operational interface improvements across technical environments.

MyRentalSpot | UI/UX Design Intern | Orinda, CA

Aug 2025 – Sept 2025

- Redesigned operational workflows and interface systems improving navigation clarity, customer interaction quality, and system usability.
- Built high-fidelity Photoshop, Visio, and responsive interface assets validating workflow scalability and graphical consistency before deployment.
- Conducted workflow evaluations and usability refinements reducing interface friction across operational dashboards and monitoring systems.
- Collaborated with cross-functional teams delivering implementation-ready assets, interface specifications, and scalable workflow systems.
- Supported rapid iteration cycles and operational interface improvements enhancing deployment readiness and system coordination.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and workflow ideation sessions supporting scalable operational experiences and interface improvements.
- Developed interface concepts, visualization structures, and workflow-focused design recommendations supporting usability optimization initiatives.
- Collaborated with cross-functional teams aligning operational goals, workflow requirements, and system experience improvements across projects.

Lighthouse Info System Pvt. Ltd | Associate Interface Designer | Nagpur, India

June 2024 – Aug 2024

- Designed responsive dashboards, operational interfaces, and enterprise workflow systems improving usability and real-time system visibility.
- Conducted stakeholder discussions and workflow evaluations identifying operational pain points and interface optimization opportunities.
- Built scalable graphical systems, reusable layouts, and operational visualization assets supporting workflow consistency across projects.
- Created interface documentation, implementation guidelines, graphical standards, and operational reports reducing inconsistencies across deliverables.
- Collaborated with engineering teams refining operational workflows, visualization systems, and scalable interface coordination processes.

Phoenixzone Technologies Pvt. Ltd | Junior UI Designer | Pune, India

Jan 2024 – June 2024

- Designed interface systems and operational dashboards improving workflow visibility, navigation clarity, and interaction consistency.
- Created graphical layouts, responsive visualization systems, and operational assets supporting rapid deployment and implementation readiness.
- Partnered directly with developers and stakeholders translating workflow requirements into scalable graphical interface improvements.
- Leveraged AI-assisted workflows accelerating visualization refinement, interface optimization, and scalable operational system validation.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
