PROFESSIONAL SUMMARY

Product Designer with 2+ years of experience designing **consumer-facing mobile applications**, interactive digital experiences, and scalable product ecosystems across **iOS, web, and responsive platforms**. Skilled in user research, **game-like interaction design**, wireframing, **rapid prototyping**, and translating complex engagement flows into intuitive high-fidelity user experiences. Experienced collaborating with product managers, engineers, and cross-functional teams to improve user engagement, progression systems, interaction quality, and design consistency across fast-moving consumer products. Strong expertise in **Figma**, design systems, **motion-driven interfaces**, **gamification mechanics**, interaction design, micro-interactions, and production-ready assets supporting high-growth consumer applications.

SKILLS

- **Product Design & UX:** Product design, UX design, consumer-facing apps, iOS design, web experiences, Android scalability, user-centered design
- **User Research & Interaction Design:** User research, interaction design, engagement flows, user journeys, workflow mapping, intuitive experiences
- **Wireframing & Prototyping:** Wireframes, mockups, interactive prototypes, rapid prototyping, high-fidelity UI, user flows, production-ready assets
- **Figma & Design Systems:** Figma, auto layout, components, variants, design systems, scalable UI systems, interaction consistency
- **Gamification & Engagement Design:** Game loops, progression systems, rewards mechanics, collectibles experiences, engagement optimization
- **Motion & Visual Design:** Motion design, micro-interactions, animation systems, visual hierarchy, delightful experiences, interaction feedback
- **Consumer Mobile Experiences:** iOS interfaces, responsive design, mobile-first systems, intuitive navigation, scalable interaction patterns
- **Cross-Platform Product Design:** Web applications, Android-ready systems, responsive behaviors, scalable workflows, product consistency
- **Research & Iteration:** Usability testing, workflow analysis, iterative improvements, prototype validation, customer feedback integration
- **Cross-Functional Collaboration:** Product managers, engineers, stakeholder communication, sprint collaboration, design critiques, implementation support
- **Documentation & Delivery:** UX documentation, annotated specifications, developer handoff, workflow artifacts, implementation-ready assets
- **Creative Problem Solving:** Rapid ideation, experimentation, scalable UX solutions, interaction refinement, customer-focused thinking
- **Visual Storytelling & Branding:** Brand moments, visual storytelling, interface delight, illustration concepts, micro-copy, visual consistency
- **Product Growth & Optimization:** User engagement, feature prioritization, retention optimization, interaction refinement, progression optimization

EXPERIENCE

CX by Design | *Product Design Intern* | New York, NY

Sept 2025 – Dec 2025

- Designed consumer-facing mobile experiences and interactive product flows improving usability, engagement, and workflow clarity across platforms.
- Built wireframes, user journeys, high-fidelity prototypes, and motion-driven interfaces translating complex concepts into intuitive experiences.
- Created reusable Figma components, scalable design systems, and production-ready assets supporting rapid iteration and feature consistency.
- Collaborated with product managers, engineers, and cross-functional teams validating ideas and refining interaction behaviors across workflows.
- Conducted usability testing, workflow analysis, and customer feedback synthesis identifying friction points and improving user engagement.
- Produced annotated specifications, implementation-ready assets, and developer handoff documentation supporting scalable product delivery.

MyRentalSpot | *UI/UX Design Intern* | Orinda, CA

Aug 2025 – Sept 2025

- Redesigned onboarding workflows and interactive digital experiences improving usability and customer engagement across responsive platforms.
- Built high-fidelity Figma and Framer prototypes validating interaction states, workflow scalability, and interface responsiveness before development.
- Conducted usability testing and synthesized qualitative findings into actionable UX improvements reducing friction across user journeys.
- Collaborated with engineering teams delivering UI specifications, responsive layouts, and implementation documentation improving launch readiness.
- Contributed reusable Figma components and scalable interaction patterns supporting cohesive product experiences across platforms.

NYC Design Factory | *Design and Innovation Volunteer* | New York, NY

Jan 2025 – Present

- Facilitated ideation workshops and collaborative design sessions supporting innovative product experiences and interactive workflows.
- Developed prototypes, interaction models, and UX concepts translating complex challenges into scalable consumer-focused design solutions.
- Collaborated with cross-functional teams aligning engagement strategies, workflow goals, and interaction systems across digital products.

Lighthouse Info System Pvt. Ltd | *Associate UI/UX Designer* | Nagpur, India

June 2024 – Aug 2024

- Designed responsive dashboards, interactive interfaces, and scalable product workflows improving usability, hierarchy, and engagement clarity.
- Conducted stakeholder interviews and workflow sessions identifying user behaviors, operational goals, and friction informing UX solutions.
- Built high-fidelity interfaces, reusable components, scalable layouts, and motion-aware interaction systems supporting workflow consistency.
- Created UX documentation, QA checklists, interaction patterns, and implementation guidelines reducing inconsistencies and engineering ambiguity.
- Collaborated with cross-functional teams refining user flows, engagement systems, and scalable product experiences across platforms.

Phoenixzone Technologies Pvt. Ltd | *Junior Product Designer* | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive web and mobile product flows improving navigation clarity, interaction quality, and customer engagement.
- Created wireframes, prototypes, game-like interaction concepts, and progression-focused experiences supporting scalable UX systems.
- Partnered directly with developers refining implementation feasibility, responsive behaviors, and interaction workflows across platforms.
- Leveraged AI-assisted prototyping workflows accelerating rapid design iteration, feature exploration, and scalable product validation

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Raison College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
