PROFESSIONAL SUMMARY

Technical Designer with 2+ years of experience developing **conceptual designs**, technical presentations, and scalable spatial experiences across design-focused environments. Skilled in **3D visualization**, **construction documentation**, schematic development, and translating complex project requirements into functionally refined design solutions. Experienced collaborating with design directors, consultants, engineers, and cross-functional teams to improve project coordination, visual communication, and production workflows across concurrent projects. Strong expertise in **Revit**, **3D modeling**, visualization software, graphic presentations, design development, and **production-ready documentation** supporting high-quality project delivery.

SKILLS

- **Technical Design & Development:** Technical design, conceptual development, schematic design, design development, construction documentation, production workflows
- **3D Modeling & Visualization:** Revit, 3D modeling, visualization workflows, rendering systems, graphic presentations, spatial visualization
- **Architectural Documentation:** Construction drawings, annotated specifications, production-ready documentation, technical coordination, design detailing
- **Graphic Design & Presentations:** Presentation layouts, visual storytelling, hierarchy, typography, branded presentations, presentation development
- **Project Coordination & Delivery:** Project delivery, workflow coordination, consultant collaboration, contractor coordination, project communication
- **Design Collaboration:** Design directors, consultants, engineers, fabricators, stakeholder communication, cross-functional collaboration
- **Problem Solving & Design Strategy:** Design refinement, practical solutions, workflow optimization, iterative development, scalable design systems
- **Spatial & Environmental Design:** Spatial experiences, accessibility requirements, functional environments, design consistency, built environments
- **Research & Design Analysis:** Workflow analysis, design reviews, project evaluation, iterative improvements, design research, visual refinement
- **Software & Visualization Tools:** Revit, Adobe Creative Suite, Rhino concepts, rendering software, visualization systems, digital workflows
- **Construction & Production Support:** Production coordination, implementation support, documentation workflows, design execution, project alignment
- **Creative & Technical Communication:** Visual communication, design rationale, project presentations, relationship management, design critiques
- **Multi-Project Management:** Concurrent projects, fast-paced environments, deadline management, organizational skills, workflow prioritization
- **Design Systems & Documentation:** Scalable layouts, production systems, implementation guidelines, workflow artifacts, project consistency

EXPERIENCE

CX by Design | *UI Design Intern* | New York, NY

Sept 2025 – Dec 2025

- Designed conceptual presentations and technical design solutions improving workflow clarity and visual consistency across project deliverables.
- Built 3D visualizations, schematic layouts, and production-ready documentation translating design concepts into scalable project solutions.
- Created graphic presentations, visualization systems, and design development assets supporting project communication and client presentations.
- Collaborated with design directors, consultants, engineers, and stakeholders refining workflows, technical coordination, and project execution.
- Conducted design reviews and workflow analysis improving presentation quality, project consistency, and production efficiency across deliverables.
- Produced annotated specifications, construction documentation, and implementation-ready assets supporting scalable project delivery.

MyRentalSpot | *UI/UX Design Intern* | Orinda, CA

Aug 2025 – Sept 2025

- Redesigned visual workflows and digital presentation systems improving usability and project communication across responsive platforms.
- Built high-fidelity visualizations and 3D presentation assets validating workflow scalability, design consistency, and production refinement.
- Conducted workflow analysis and synthesized qualitative findings into actionable design improvements reducing friction across project deliverables.
- Collaborated with engineering teams delivering visual specifications, responsive layouts, and implementation assets improving project readiness.
- Contributed scalable visual systems and presentation patterns supporting design consistency across concurrent project workflows.

NYC Design Factory | *Design and Innovation Volunteer* | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and design sessions supporting innovative spatial concepts and visual project experiences.
- Developed prototypes, visualization systems, interaction models, and design concepts translating project challenges into scalable solutions.
- Collaborated with cross-functional teams aligning workflow goals, presentation systems, and design strategies across creative initiatives.

Lighthouse Info System Pvt. Ltd | *Associate UI/UX Designer* | Nagpur, India

June 2024 – Aug 2024

- Designed technical dashboards, visual interfaces, and presentation systems improving hierarchy, usability, and workflow clarity.
- Conducted stakeholder interviews and workflow sessions identifying project requirements, operational goals, and design refinement opportunities.
- Built high-fidelity visual systems, scalable layouts, and production-ready assets supporting project consistency and technical coordination.
- Created documentation, QA checklists, interaction patterns, and implementation guidelines reducing inconsistencies across deliverables.
- Collaborated with consultants and cross-functional teams refining project workflows, visual systems, and scalable design solutions across platforms.

Phoenixzone Technologies Pvt. Ltd | *Junior Technical Designer* | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive project experiences and visual systems improving presentation clarity and workflow consistency across platforms.
- Created mockups, prototypes, visualization systems, and interaction concepts focused on scalable design workflows and usability optimization.
- Partnered directly with developers refining implementation feasibility, visual behaviors, and production workflow coordination.
- Leveraged AI-assisted visualization workflows accelerating rapid design iteration, rendering exploration, and scalable project validation

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
