PROFESSIONAL SUMMARY

Web Designer with 4+ years of experience creating **custom websites**, **responsive digital experiences**, and conversion-focused interfaces across agency, startup, and business environments. Skilled in web design, visual hierarchy, **typography**, **layout design**, **wireframing**, **prototyping**, and translating business goals, content strategy, and user needs into intuitive digital experiences that improve engagement, usability, and brand perception. Experienced collaborating with developers, project managers, content teams, and stakeholders to deliver polished, developer-ready designs aligned with strategic objectives and user expectations. Strong expertise in **Figma**, **Adobe Creative Suite**, responsive web design, design systems, accessibility, usability principles, branding, visual communication, and **high-fidelity website design**.

SKILLS

- **Web Design & Digital Experiences:** Custom websites, digital experiences, interface design, user engagement, website strategy, visual communication
- **Typography & Layout Design:** Typography, spacing, layout systems, visual hierarchy, readability, content presentation
- **Responsive Website Design:** Responsive layouts, mobile-first design, adaptive experiences, cross-device compatibility, usability
- **Figma & Design Execution:** Figma, high-fidelity designs, wireframes, prototypes, design workflows, developer-ready deliverables
- **Adobe Creative Suite:** Photoshop, Illustrator, InDesign, visual design, creative production, branded digital assets
- **UX/UI Design Principles:** User experience, interface design, usability principles, interaction design, customer-focused experiences
- **Wireframing & Prototyping:** Wireframes, mockups, prototypes, concept validation, design refinement, implementation readiness
- **Branding & Visual Identity:** Brand consistency, visual identity, brand guidelines, cohesive digital experiences, visual systems
- **Design Systems & Components:** Design systems, reusable components, scalable interfaces, UI consistency, organized design files
- **Accessibility & Usability:** Accessibility standards, usability improvements, inclusive design, user-centered solutions, navigation clarity
- **Content-Driven Design:** Content strategy, information hierarchy, structured layouts, storytelling, user comprehension
- **Developer Collaboration:** Developer handoff, implementation support, design reviews, cross-functional teamwork, communication
- **CMS & Website Platforms:** WordPress, content management systems, website maintenance, digital publishing, platform familiarity
- **Project Ownership & Delivery:** Project ownership, deadline management, design execution, quality assurance, workflow coordination
- **Creative Problem Solving:** Design thinking, visual storytelling, innovative solutions, continuous improvement, design excellence

EXPERIENCE

CX by Design | Web Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Designed custom websites and responsive digital experiences improving engagement, usability, visual consistency, and satisfaction across platforms.
- Translated business goals, content requirements, and customer needs into intuitive web experiences and scalable digital design solutions.
- Created high-fidelity Figma designs, reusable design systems, visual assets, and developer-ready files supporting implementation quality.
- Applied typography, spacing, hierarchy, and responsive design principles improving readability, navigation, user engagement, and accessibility.
- Collaborated with developers and stakeholders refining user experiences, visual systems, implementation priorities, and design quality.
- Contributed scalable design standards, workflow improvements, and high-quality digital experiences supporting business growth objectives.

MyRentalSpot | Web Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Developed responsive website experiences improving onboarding efficiency, customer engagement, interaction consistency, and usability.
- Built wireframes, prototypes, Figma mockups, and scalable interface systems supporting business goals and customer experience objectives.
- Conducted usability evaluations, customer feedback analysis, and interface refinements improving accessibility, engagement outcomes, and quality.
- Collaborated with developers and stakeholders delivering implementation-ready designs aligned with project requirements and business priorities.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Dec 2025

- Facilitated collaborative workshops and ideation sessions supporting innovative digital experiences, service improvements, and customer solutions.
- Developed visual communication assets, interface concepts, and design explorations translating ideas into actionable outcomes.

Lighthouse Info System Pvt. Ltd | Associate Web Designer | Nagpur, India

June 2024 – Aug 2024

- Designed responsive websites, dashboards, and digital experiences improving usability, communication quality, customer engagement, and accessibility.
- Conducted stakeholder discussions, usability evaluations, workflow analyses, and design reviews identifying optimization opportunities.
- Built reusable layouts, design systems, wireframes, prototypes, and implementation-ready assets supporting scalability, consistency, and maintainability.
- Created style guides, design documentation, QA processes, and visual standards improving quality across digital experiences and platforms.

Phoenixzone Technologies Pvt. Ltd | Web Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive websites and customer-focused digital experiences improving usability, engagement, visual performance, and satisfaction.
- Created wireframes, prototypes, website layouts, branded assets, and visual systems supporting rapid project delivery and implementation.
- Partnered directly with stakeholders translating business requirements into scalable website solutions and impactful customer experiences.
- Leveraged AI-assisted workflows accelerating design exploration, iteration cycles, implementation efficiency, and project execution quality.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Raison College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
