PROFESSIONAL SUMMARY

HMI UI/UX Designer with 4+ years of experience designing **industrial interfaces**, enterprise applications, machine control dashboards, and workflow-driven digital products across complex operational environments. Skilled in **HMI design**, **UI/UX design**, information architecture, responsive interfaces, storyboarding, wireframing, prototyping, and transforming complex machine operations into intuitive user experiences improving usability, efficiency, and operational accuracy. Experienced collaborating with controls engineers, product managers, software engineers, data teams, and stakeholders to deliver scalable HMI systems, design standards, and user-centered interfaces. Strong expertise in **Figma**, HMI workflows, SVG and PNG assets, **design systems**, **QA validation**, industrial dashboards, responsive HTML5 interfaces, visual communication, and continuous product improvement initiatives.

SKILLS

- **HMI Design & Machine Interfaces:** Human machine interfaces, machine dashboards, operator workflows, industrial systems, control interfaces
- **UI/UX Design & Interaction Design:** User experience design, interaction design, interface optimization, workflow efficiency, usability
- **Industrial Workflow Design:** Machine operations, process visualization, operational clarity, workflow mapping, system navigation
- **Storyboarding & Concept Development:** Storyboards, concept development, user scenarios, design communication, feature visualization
- **Wireframing & Prototyping:** Wireframes, mockups, prototypes, interaction flows, concept validation, implementation readiness
- **Figma & Design Tools:** Figma, Sketch, design systems, interface design, high-fidelity visual experiences
- **Graphic Design & Visual Systems:** Icons, color schemes, visual hierarchy, layouts, branding consistency, interface aesthetics
- **Design Systems & Style Guides:** Design standards, style guides, reusable components, scalable systems, UI consistency
- **SVG, PNG & Graphic Assets:** SVG graphics, PNG assets, visual resources, image optimization, interface assets
- **Responsive HTML5 Interfaces:** Responsive design, HTML5 interfaces, cross-device experiences, adaptive layouts, accessibility
- **QA Testing & Validation:** Quality assurance, usability validation, issue identification, remediation planning, interface testing
- **Information Architecture:** Information organization, screen hierarchy, navigation systems, content structure, workflow clarity
- **Cross-Functional Collaboration:** Controls engineers, data engineers, developers, product teams, stakeholder collaboration
- **Documentation & Screen Assets:** Screen documentation, interface specifications, visual references, system documentation updates
- **DevOps & Version Control:** Git workflows, collaborative development, version control, implementation coordination, release support

EXPERIENCE

CX by Design | UI/UX Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Designed workflow-driven interfaces and operational dashboards improving usability, task efficiency, and user comprehension.
- Created scalable design systems, style guides, color schemes, and reusable components supporting interface consistency.
- Translated complex operational requirements into intuitive layouts, user flows, wireframes, and implementation-ready designs.
- Conducted QA reviews identifying usability issues, interface inconsistencies, and optimization opportunities improving experience quality.
- Collaborated with engineers and stakeholders aligning interface functionality, workflow requirements, and implementation priorities.
- Developed visual assets, icons, screen specifications, and interface documentation supporting scalable product delivery.

MyRentalSpot | UI/UX Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Developed workflow-based application experiences improving onboarding efficiency, usability, and interaction consistency.
- Built high-fidelity prototypes, interface concepts, user flows, and scalable design solutions supporting business objectives.
- Conducted usability evaluations, feedback analysis, and design refinements improving accessibility and engagement outcomes.
- Collaborated with developers and stakeholders delivering implementation-ready interfaces aligned with project requirements.
- Supported rapid iteration cycles, feature validation, QA reviews, and deployment activities improving product quality.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Dec 2025

- Facilitated collaborative workshops and concept sessions supporting innovative interface solutions and operational improvements.
- Developed visual communication assets, workflow concepts, and experience designs translating user needs into actionable outcomes.

Lighthouse Info System Pvt. Ltd | Associate UI/UX Designer | Nagpur, India

June 2024 – Aug 2024

- Designed enterprise dashboards, workflow systems, and operational interfaces improving efficiency, visibility, and usability.
- Conducted stakeholder discussions, workflow analyses, usability evaluations, and design reviews identifying optimization opportunities.
- Built information architectures, wireframes, prototypes, screen layouts, and scalable interface frameworks supporting consistency.
- Created UX documentation, QA validation processes, implementation guidance, and interface standards improving delivery quality.
- Collaborated with engineering teams refining workflow systems, operational dashboards, and scalable software experiences.

Phoenixzone Technologies Pvt. Ltd | UI/UX Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ workflow-driven interfaces and operational experiences improving usability, efficiency, and customer satisfaction.
- Created user flows, wireframes, prototypes, dashboards, and visual systems supporting rapid feature delivery and adoption.
- Partnered directly with stakeholders translating business requirements into scalable interface solutions and workflow improvements.
- Leveraged AI-assisted workflows accelerating design exploration, validation processes, implementation efficiency, and iteration speed.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
