PROFESSIONAL SUMMARY

UI/UX Designer with 3+ years of experience designing **AI-powered SaaS platforms, workflow-driven applications**, and enterprise software solutions across complex business environments. Skilled in **information architecture**, workflow design, **AI interaction design**, conversational interfaces, wireframing, prototyping, and transforming complex business processes into intuitive product experiences improving efficiency, usability, and decision-making. Experienced collaborating with product managers, engineers, AI teams, and stakeholders to drive end-to-end product initiatives from concept through implementation. Strong expertise in **Figma**, AI-powered workflows, **design systems**, component libraries, interaction design, enterprise platforms, generated content management, version control workflows, and scalable product experiences supporting modern AI-enabled products.

SKILLS

- **AI Product Design & Workflows:** AI-powered products, AI tools, agent workspaces, conversational interfaces, workflow automation, AI interactions
- **Workflow Design & Product Strategy:** Workflow design, product strategy, business process mapping, feature ownership, product logic
- **Information Architecture & Systems:** Information architecture, complex data structures, content organization, workflow nodes, navigation systems
- **Wireframing & Prototyping:** User flows, wireframes, interactive prototypes, concept validation, high-fidelity product experiences
- **Figma & Product Design Tools:** Figma, design systems, component libraries, reusable patterns, scalable design foundations
- **AI Interaction Patterns:** Generated content editing, version control, parameter configuration, human confirmation workflows
- **Enterprise & SaaS Platforms:** SaaS products, enterprise software, workflow platforms, operational systems, business applications
- **Content Creation Workflows:** Content generation, production workflows, asset management, project organization, delivery systems
- **User Experience Design:** Interaction design, experience design, workflow optimization, usability improvements, customer-focused solutions
- **Design Systems & Standards:** Design systems, interaction standards, UI consistency, scalable components, reusable frameworks
- **Cross-Functional Collaboration:** Product managers, engineers, AI engineers, stakeholders, collaborative product development
- **Complex Workflow Simplification:** Process simplification, low-learning-curve interfaces, workflow efficiency, usability optimization
- **Visual Design & Interface Systems:** Visual hierarchy, clean interfaces, professional aesthetics, premium design standards
- **Project Delivery & Execution:** Product implementation, workflow validation, design documentation, scalable product delivery
- **AI-Assisted Design Workflows:** AI-assisted workflows, rapid prototyping, iterative design execution, accelerated product innovation

EXPERIENCE

CX by Design | UI/UX Designer Intern | New York, NY

Sept 2025 – Dec 2025

- Designed end-to-end workflow experiences for SaaS platforms and enterprise applications improving usability, efficiency, and task completion.
- Translated complex business requirements into scalable user flows, wireframes, prototypes, and production-ready product experiences.
- Designed AI-assisted workflows, conversational interactions, and content management experiences reducing friction across user journeys.
- Built information architectures organizing complex content, assets, configurations, workflow states, and operational data structures.
- Collaborated with product managers, engineers, and stakeholders aligning product strategy, workflow logic, and implementation priorities.
- Established scalable design systems, reusable components, interaction standards, and design documentation supporting product consistency.

MyRentalSpot | UI/UX Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Developed workflow-driven application experiences improving onboarding efficiency, usability, and interaction consistency across platforms.
- Built high-fidelity Figma prototypes, user flows, scalable interaction systems, and implementation-ready product solutions.
- Conducted workflow evaluations, usability reviews, and customer feedback analysis improving accessibility and engagement outcomes.
- Collaborated with developers, product teams, and stakeholders delivering scalable design systems and workflow improvements.
- Supported rapid iteration cycles, feature refinement, design validation, and deployment activities improving product quality.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and ideation sessions supporting innovative digital products and workflow-driven solutions.
- Developed workflow analyses, interaction concepts, and communication assets translating user needs into actionable product opportunities.
- Collaborated with multidisciplinary teams aligning customer journeys, usability goals, and innovation initiatives.

Lighthouse Info System Pvt. Ltd | Associate Product Designer | Nagpur, India

June 2024 – Aug 2024

- Designed enterprise dashboards, workflow systems, and user-centered digital experiences improving operational efficiency and usability.
- Conducted stakeholder discussions, workflow analyses, usability evaluations, and design reviews identifying optimization opportunities.
- Built information architectures, scalable interaction systems, wireframes, prototype-ready assets, and workflow frameworks supporting consistency.
- Created UX documentation, design standards, QA validation processes, and implementation guidance reducing operational inefficiencies.
- Collaborated with engineering teams refining workflow automation, interaction systems, and enterprise software experiences.

Phoenixzone Technologies Pvt. Ltd | Junior Product Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ workflow-driven digital experiences and scalable UX systems improving engagement, usability, and operational performance.
- Created wireframes, prototypes, user flows, interaction systems, and content management experiences supporting rapid product delivery.
- Partnered directly with stakeholders translating business requirements into scalable workflow solutions and product recommendations.
- Leveraged AI-assisted workflows accelerating design exploration, validation processes, iteration cycles, and implementation efficiency.

EDUCATION

Pace University, New York | MS in Human Centered Design

Sept 2024 – Dec 2025

G.H. Raisoni College of Engineering | Bachelor of Engineering in Computer Science

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
