PROFESSIONAL SUMMARY

Website Manager with 3+ years of experience designing, developing, optimizing, and maintaining responsive websites, digital platforms, and user-centered web experiences across business and marketing environments. Skilled in **website management**, **front-end development**, **UI/UX design**, wireframing, prototyping, usability testing, **SEO optimization**, and translating business requirements into engaging digital experiences improving performance, accessibility, and user engagement. Experienced collaborating with developers, marketers, stakeholders, and cross-functional teams to deliver scalable websites, digital assets, and conversion-focused online experiences. Strong expertise in **HTML**, **CSS**, **JavaScript**, **Figma**, **Adobe Creative Suite**, **WordPress**, responsive design, web analytics, accessibility standards, content management systems, and website performance optimization.

SKILLS

- **Website Management & Optimization:** Website management, website maintenance, performance monitoring, functionality improvements, digital experiences
- **Front-End Development:** HTML5, CSS3, JavaScript, responsive development, frontend implementation, interactive web experiences
- **Web Design & UI/UX Design:** Web design, UI design, UX design, usability optimization, interface design, customer engagement
- **Responsive Design & Accessibility:** Responsive layouts, WCAG standards, accessibility compliance, cross-device compatibility, usability
- **Wireframing & Prototyping:** Wireframes, mockups, prototypes, user flows, design validation, implementation readiness
- **Figma & Adobe Creative Suite:** Figma, Adobe XD, Photoshop, Illustrator, InDesign, visual design, digital asset creation
- **Content Management Systems:** WordPress, Drupal, CMS administration, content publishing, website updates, platform management
- **SEO & Website Analytics:** SEO optimization, Google Analytics, Adobe Analytics, performance tracking, search visibility
- **Usability Testing & User Research:** User research, usability testing, user feedback analysis, experience improvements, optimization
- **Design Systems & Visual Standards:** Design systems, reusable components, style guides, visual consistency, brand standards
- **Website Performance & Security:** Performance optimization, troubleshooting, website security, maintenance workflows, functionality support
- **Digital Marketing Integration:** Email marketing, Mailchimp, social media integration, campaign support, audience engagement
- **Interaction Design & Motion Graphics:** Interaction design, visual effects, motion graphics, user engagement, digital storytelling
- **Version Control & Collaboration:** Git, developer collaboration, implementation support, workflow management, code coordination
- **Project Management & Execution:** Multi-project management, deadline execution, workflow coordination, quality assurance, organization

EXPERIENCE

CX by Design | Website Manager Intern | New York, NY

Sept 2025 – Dec 2025

- Led website design, optimization, and maintenance initiatives improving engagement, usability, accessibility, and digital performance.
- Designed responsive web experiences, wireframes, prototypes, and scalable interface systems supporting business growth objectives.
- Created reusable design systems, visual assets, style guides, and developer-ready files improving implementation consistency.
- Optimized website performance, SEO visibility, mobile responsiveness, and user interactions enhancing customer engagement outcomes.
- Collaborated with developers, marketers, and stakeholders aligning website strategy, user needs, and implementation priorities.
- Contributed AI-assisted workflows, website standards, analytics-driven improvements, and scalable digital systems increasing efficiency.

MyRentalSpot | Web Designer Intern | Orinda, CA

Aug 2025 – Sept 2025

- Developed responsive websites and user-centered web experiences improving onboarding efficiency and interaction consistency.
- Built high-fidelity Figma prototypes, wireframes, landing pages, and scalable interface systems supporting business objectives.
- Conducted usability evaluations, user feedback analysis, and interface refinements improving accessibility and engagement outcomes.
- Collaborated with developers and stakeholders delivering implementation-ready designs aligned with customer requirements.
- Supported website enhancements, content updates, performance improvements, and deployment activities improving digital experiences.

NYC Design Factory | Design and Innovation Volunteer | New York, NY

Jan 2025 – Dec 2025

- Facilitated collaborative workshops and ideation sessions supporting innovative digital campaigns and customer-focused experiences.
- Developed visual communication assets, branded concepts, and presentation materials translating ideas into impactful outcomes.
- Collaborated with multidisciplinary teams aligning customer journeys, campaign goals, and design innovation initiatives.

Lighthouse Info System Pvt. Ltd | Associate Web Designer | Nagpur, India

June 2024 – Aug 2024

- Designed responsive websites, dashboards, and digital experiences improving usability, communication quality, and engagement.
- Conducted stakeholder discussions, usability evaluations, workflow analyses, and design reviews identifying optimization opportunities.
- Built reusable layouts, design systems, wireframes, prototypes, and implementation-ready assets supporting scalability and consistency.
- Created style guides, UX documentation, QA processes, and website standards reducing inconsistencies across digital platforms.
- Collaborated with engineering teams refining frontend experiences, accessibility workflows, and scalable website solutions.

Phoenixzone Technologies Pvt. Ltd | Junior Web Designer | Pune, India

Jan 2024 – June 2024

- Designed 20+ responsive websites and customer-focused digital experiences improving engagement, usability, and visual performance.
- Created wireframes, prototypes, website layouts, branded assets, and interaction systems supporting rapid project delivery.
- Partnered directly with stakeholders translating business requirements into scalable website solutions and digital experiences.
- Leveraged AI-assisted workflows accelerating design iteration, optimization activities, implementation efficiency, and project execution.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

FEATURED PROJECTS

Claudit – AI-Powered Design Auditing Platform | (Ongoing)

- Designed an AI-assisted SaaS platform that transforms interface screenshots into structured UX evaluations and actionable recommendations.
- Leveraged AI-powered workflows to improve design analysis, accessibility reviews, cognitive load assessments, and usability evaluation processes.
- Built reusable design systems, dashboard experiences, and scalable component frameworks supporting rapid product iteration.

Author | (Ongoing)

- Writing a book that explores the intersection of design, creativity, human emotion, and perception through a human-centered lens.
- Examines how everyday experiences, environments, relationships, and moments are intentionally or unintentionally designed, revealing the impact of design on human behavior and meaning-making.
- Integrates storytelling, psychology, observation, and design thinking to translate complex human experiences into compelling narratives and insights.

BreathFree | Quit Smoking & Behavioral Health App

- Designed a mobile wellness platform helping users quit smoking through personalized challenges, progress tracking, and behavior-change interventions.
- Conducted user research and usability testing to create engaging, supportive user journeys.

eBay UX Research Case Study

- Led UX research with 50 participants using Tree Testing and First-Click Testing to evaluate navigation and information architecture.
- Synthesized findings into actionable recommendations that improved task success and user experience.

Therapod | AR Wellness Experience

- Designed an AR-powered wellness solution focused on stress reduction, emotional regulation, and user well-being.
- Created intuitive user flows, onboarding experiences, and personalized wellness interactions.

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)
