PROFESSIONAL SUMMARY

AI-Native Product Designer with 2+ years of experience designing **scalable SaaS platforms**, cross-platform web applications, and high-impact digital experiences in fast-paced product environments. Proven ability to ship end-to-end product features from concept to implementation through **rapid prototyping**, **AI-assisted workflows**, and **scalable design systems**. Skilled at translating complex workflows, structured data, and technical requirements into intuitive, production-ready user experiences using **Figma**, **Framer**, and interactive prototyping workflows. Experienced collaborating closely with product managers and engineers in **product triads** to deliver implementation-ready assets, scalable UX systems, and data-informed product improvements through rapid iteration and experimentation.

SKILLS

- AI-Native UX & Workflow Design: AI-native UX, conversational workflows, AI-assisted workflows, Claude, ChatGPT, AI-supported ideation, AI-supported execution, rapid experimentation, prompt-driven workflows, AI-supported research, AI-supported decision making
- Product Design & Execution: End-to-end product design, UX flows, wireframes, high-fidelity design, interaction design, usability, hierarchy, polished visual execution, responsive interfaces, cross-platform web experiences, SaaS product design
- Design Systems & Scalability: Design systems, scalable UI systems, reusable UI components, component properties, variables, tokens, pattern creation, scalable design execution, design consistency, Storybook familiarity
- Prototyping & Vibe Coding: Interactive prototypes, rapid prototyping, Framer workflows, lightweight front-end builds, vibe coding, low-code prototyping, working demos, JSON-driven prototypes, concept-to-prototype execution
- Research & Iteration: User research, usability testing, workflow analysis, prototype validation, experimentation workflows, feedback synthesis, continuous iteration, iterative refinement, data-informed design optimization
- Frontend Collaboration & Developer Workflows: Frontend collaboration, annotated handoffs, implementation-ready assets, frontend feasibility, HTML, CSS, JavaScript, React familiarity, developer workflows, visual QA
- Tools & Platforms: Figma, Framer, Adobe Creative Suite, Dev Mode, Mixpanel basics, Jira, Notion, FigJam, Miro
- Accessibility & Collaboration: Accessibility best practices, WCAG fundamentals, Agile collaboration, product triads, cross-functional teamwork, stakeholder communication, engineering collaboration

EXPERIENCE

CX by Design | *Product Design Intern* | New York, NY

Sept 2025 – Present

- Defined UX vision and AI-native interaction workflows supporting scalable SaaS and cross-platform product experiences.
- Shipped 5+ high-impact product features from concept through launch, improving usability, workflow clarity, and engagement across experiences.
- Designed end-to-end UX flows, wireframes, high-fidelity designs, and interactive Framer prototypes supporting rapid iteration and product validation.
- Built JSON-driven prototypes and lightweight front-end demos simulating AI interactions, retrieval behavior, and structured product workflows.
- Contributed to scalable design systems using reusable components, variables, tokens, and pattern libraries supporting consistent product execution.
- Rapidly prototyped concepts using Claude, ChatGPT, and AI-assisted workflows accelerating ideation, experimentation, iteration, and product validation.
- Partnered closely with product managers and engineers in a triad model to deliver implementation-ready assets, frontend-ready specifications, and visual QA support.

MyRentalSpot | *Product Design Intern* | Orinda, CA

Aug 2025 – Sept 2025

- Conducted user research, workflow analysis, and usability testing improving customer journeys and interaction consistency across product experiences.
- Built interactive Framer prototypes, wireframes, and high-fidelity mockups supporting rapid iteration, experimentation, and implementation validation workflows.
- Collaborated with front-end developers and stakeholders to refine navigation systems, information architecture, and scalable UX workflows.

NYC Design Factory | *Design and Innovation Volunteer* | New York, NY

Jan 2025 – Present

- Facilitated collaborative workshops and rapid ideation sessions supporting zero-to-one product innovation and scalable design thinking.
- Developed journey maps, rapid prototypes, and customer-centered workflows focused on usability, experimentation, and product clarity.

Lighthouse Info System Pvt. Ltd | *Associate Product Designer* | Nagpur, India

June 2024 – Aug 2024

- Conducted stakeholder interviews, workflow analysis, and contextual inquiry to identify usability gaps and improve SaaS platform experiences.
- Designed scalable dashboard UX, responsive interfaces, JSON-driven workflows, and reusable UI systems optimized for usability and large data interactions.
- Delivered implementation-ready specifications, reusable design assets, scalable design system contributions, and frontend collaboration workflows supporting product development

Phoenixzone Technologies Pvt. Ltd | *Junior Product Designer* | Pune, India

Jan 2024 – June 2024

- Designed 20+ end-to-end workflows and cross-platform digital experiences across enterprise web and mobile platforms.
- Built high-fidelity prototypes, reusable UI systems, scalable workflows, and interactive demos using Figma, Framer, HTML, CSS, React snippets, and low-code prototyping workflows.
- Collaborated with engineers and stakeholders on implementation feasibility, accessibility best practices, rapid iteration cycles, and frontend collaboration workflows.

EDUCATION

Pace University, New York | *MS in Human Centered Design*

Sept 2024 – Dec 2025

G.H. Rasoni College of Engineering | *Bachelor of Engineering in Computer Science*

Sept 2020 – June 2024

ACHIEVEMENTS & PUBLICATIONS

Research Papers:

- Design Meets Code: Real-Time Human - AI Co-Creation and Cognitive-Load-Aware Design Assistance, Accepted Poster - HCI International Conference (HCII 2026) | Springer CCIS
- Impact of Colors in Designing, published in the International Journal of Engineering, Management and Humanities (IJEMH)
- User Interface, User Experience, and Layout, published in the International Journal for Multidisciplinary Research (IJFMR)
- Enhancing Patient Privacy in Electronic Medical Records, published in the International Journal of Science and Research (IJSR)

Copyright: Earthquake Prediction using Quantum Support Vector Machines (QSVM) - January 2024
